

# Jewish Planes, Troops Break Truce, U.N. Officer Says

Slickest Swindle

Mrs. Margaret Sullivan, 40, mother of three children, was arrested in Los Angeles on charges that she set up a dummy company with phony letterheads to fleece a bank, a finance company and other firms of \$50,000. Authorities described the swindling as one of the slickest bunco schemes ever perpetrated in Los Angeles.

## England 400 Ahead In Fourth Test; Australia To Bat

LEEDS, Yorkshire, Eng. (Reuter)—England scored 362 fast second-innings runs today in the fourth cricket test match against Australia, finishing the fourth day of the five-day contest 400 runs ahead of the Australians.

Eight English wickets fell during an exciting day's cricket.

By tea time, England had 209 for two.

Australia won the first two matches of the current five-match series, of which this is the fourth. The third match was drawn.

The best England can do is tie the series, having lost the Ashes, emblematic of Commonwealth cricket supremacy, by failing to win the series.

## O.C. Cricket

LONDON (Reuter)—County cricket close of play scores today:

Kent, first innings 353 for eight, declared; second innings 101 for three. Essex, first innings 247.

Middlesex, first innings 122; second innings 242 for seven. Lancashire, first innings 245.

Yorkshire, first innings 349. Surrey, first innings 277.

Sussex, first innings 330 for eight, declared; second innings 22 for one. Leicestershire, first innings 388.

Worcestershire, first innings 297; second innings 249 for six. Somerset, first innings 224.

Nottinghamshire, first innings 180; second innings 77 for three. Derbyshire, first innings 404.

Warwickshire, first innings 122; second innings 235. Glamorgan, first innings 254.

Gloucestershire, first innings 187; second innings 225. Hampshire, first innings 231; second innings 50 for zero.

## Weather Postpones Western Net Meet

VANCOUVER (CP)—Rain forced postponement of the opening of the Western Canada lawn tennis championships at the Vancouver lawn tennis club today.

Tournament officials said opening matches now are scheduled for tomorrow morning and that they hoped to complete nearly all first-round singles matches during the opening day.

Ken Stewart of South Pasadena, Calif., is top-seeded in the men's singles. Emory Neale of Portland is seeded second and Hank Pfister of San Francisco, third.

Beverly Baker of Santa Monica, Calif., tops the women's singles entry list, followed by Jean Milne of Vancouver; 13-year-old Maureen Connelly of San Diego and Barbara Kimbrell of Los Angeles.

## K.K.K. Holds Biggest Initiation

Members of the Ku Klux Klan gather around a huge flaming cross as the Klan held one of the largest initiation ceremonies in its history, near Atlanta, Ga. More than 1,000 inductees accepted the oath of the Klan at the foot of Stone Mountain, in background.

## Duluth Bus-Truck Crash Claims 6th Ballplayer Victim

ST. PAUL, Minn. (AP)—Steve Lazar of Oliphant, Pa., died today, the sixth victim of the bus-truck collision which shattered the ranks of the Duluth Northern League baseball team.

The 23-year-old second baseman died in a hospital where he had been brought unconscious Saturday after this team's bus had collided with a truck.

Four of Lazar's teammates were killed outright as the machines met on a slight rise at the northern edge of St. Paul.

They were George Treadwell, 42, of Superior, Wis., team manager; outfielder Gerald Kirdila, 19, of Duluth, who played under the name of Gilbert Trible; and pitcher Donald Schuchman of St. Louis. The other victim was James E. Grealish of St. Paul, driver of the truck.

RECOVERING IN HOSPITAL  
Fourteen other members of the team were injured, but all remaining in the hospitals were reported showing improvement today.

Those still in serious condition: Catcher Bernard Geri of Joliet, Ill.; pitcher Sam Patlich of St. Paul; pitcher Donald Gilmore of Columbus, Ohio; pitcher Donald Vandervier of Muskegon, Mich.; shortstop Joseph Becker of St. Louis; and pitcher Robert F. Vogelanz of Evergreen Park, Ill.; pitcher John Riltonya of Omaha.

Officials of the Northern League, the Duluth team and its parent organization, the St. Louis Cardinals, said the "Dukes" schedule would be completed. Several league clubs offered players to the Dukes and the Cardinals will provide others from their extensive farm system.

25 Moslems Killed In India Battle

NEW DELHI, India (AP)—Twenty-five armed members of the United Moslem Party of Hyderabad were killed in a clash Saturday with Indian troops inside that blockaded state, a Defence Ministry communiqué said tonight. The number of Indian casualties was not given.

Manager Of Leafs To Boss Phillies

PHILADELPHIA (AP)—Eddie Sawyer manager of Toronto Maple Leafs in the International League, today was named manager of Philadelphia Phillies of the National League.

Sawyer succeeds acting manager Dusty Crooks who took over field generalship of the Blue Jays after Ben Chapman was fired 11 days ago.

The 37-year-old Sawyer has been steadily moving up in the Phils' farm organization. He managed the class A Utica club to Eastern League championships in 1945 and 1947 and was named to manage Toronto this year.

Lost Her Pigtails

MARGATE, Eng. (AP)—Police are looking for a Jack-the-Sniper. Little Jane Cox, six, came home from a crowded amusement park with both her pigtails missing. She said she had felt nothing. It was the second instance of a little girl's hair being snipped while she looked the other way.

## Nfld. May Join Canada In 1949

OTTAWA (CP)—Some government officials suggested today that if all goes well, Newfoundland might become Canada's 10th province by Dominion Day, 1949.

These views were expressed while R. A. Mackay of the External Affairs department was en route to Newfoundland, presumably to confer with Sir Gordon MacDonald, governor of the island, on the form to be adopted for confederation overtures to the Dominion.

The cabinet will meet here tomorrow to consider the result of the referendum on confederation but no decision on whether to admit Newfoundland as a 10th province is expected at that time. Currently the figures show about 6,000 majority for confederation.

Reach Agreement On Final Plans For West Germany

FRANKFURT (AP)—Military governors and German political leaders of the three western zones reached final agreement tonight on plans for a western Germany government, it was learned officially.

The agreement leaves open the door for participation in the future by the Russian zone in eastern Germany, it was learned.

The military governors and the ministers-president of the states in the three western zones decided a "constituent" assembly will be elected by Sept. 1. Its charter will be submitted to the Germans in a referendum, as suggested by the military governors.

The military governors promised to place before their governments the German leaders' objection to the referendum. The Germans contended a referendum would enable Nazis, Communists and malcontents to stir discord.

Piracy Suspected In Plane Crash

MACAO (AP)—A plot to kidnap four millionaire passengers may have been responsible for the crash of an airliner with 25 deaths, the police commissioner of this Portuguese colony declared today.

One of the victims carried a huge sum of cash, he said.

The Cathay Pacific Line's flying boat, en route from Macao to the nearby British colony of Hongkong, crashed into the sea four miles from Macao July 16.

H. G. Stewart and his wife of Vancouver were killed in the crash. Stewart was employed at Hongkong as assistant manager of the Texas Oil Company.

Police Commissioner L. A. M. Paletti declined in an interview to identify the millionaires, but he said:

"We have a few small indications pointing to piracy. When we raise the rest of the wreckage we may find more evidence to confront one suspect we already are holding."

52 Week-end Fatalities In Eastern Canada

TORONTO (CP)—Topped by the deaths of 29 persons in a Gaspe Peninsula plane crash, the week-end fatality toll in eastern Canada reached 52. At least seven persons died in drownings, seven in traffic accidents, three in falls, two each from accidental shootings and burns, one from electrocution and one in a railway crossing accident.

Wine With Meals

VANCOUVER (CP)—Fight of British Columbia hotel operators for legislation permitting sale of beer and wine with hotel meals will receive the backing of veterans' clubs. Maj. George Stiles, provincial president of the army, navy and air force veterans in Canada, said today the units throughout B.C. will back the resolution.

## Palestine Arab Refugees Cause Serious Problem

RHODES (AP)—A United Nations military observer said today Jewish planes and infantry had violated the Palestine truce by attacking three Arab villages along the Haifa-Tel Aviv Road.

Reporting to Count Folke Bernadotte's mediation headquarters, the observer said Jewish airmen and troops moved against the villages of Jaba, Izrum and Ain Ghazil on three successive nights. The observer added that the villages were occupied by Arab irregulars and Iraqi troops.

BEYROUTH (AP)—Count Folke Bernadotte announced that the Arab states have agreed in principle to the demilitarization of Jerusalem.

"Technical details are to be regulated," the United Nations Palestine mediator added, after conferences with Lebanese officials. "I am going to Tel Aviv and demilitarization then becomes effective."

He said Palestinian Arab refugees numbering 300,000 to 400,000 are dispersed over the Arab countries and constitute a disquieting problem. He said he had asked for a United Nations expert to help him work out a solution.

This refugee problem also is to be discussed with Jewish officials in Tel Aviv, Bernadotte said.

Powell River Ups Newsprint By \$4

VANCOUVER (CP)—Price of newsprint will be raised \$4 to \$39 a ton effective Aug. 1, officials of the Powell River Co. Ltd., British Columbia's largest manufacturer, announced today.

Pacific Mills Ltd., B.C.'s second largest newsprint producer, reported no decision has yet been made.

The increase in the Powell River price follows similar advances announced last week by Abitibi Power and Paper Co. Ltd. in Toronto and the Crown Zellerbach Corporation in San Francisco, and today by International Paper Sales Company Inc. in Montreal.

Powell River officials, who now are notifying their contract buyers of the boost, said it is necessitated by rising prices of wages, materials and fuel.

Canada, U.S. Agree On Television Waves

OTTAWA (CP)—Canada and the United States have agreed on a distribution of television channels within a 250-mile belt on each side of the border, government officials said today.

There will be an exchange of diplomatic notes to consummate the arrangement.

It will ensure that when television stations are started in Canadian cities—applications are pending in both Toronto and Montreal—they will have certain channels open to them in which there will be no interference.

An official said it was possible that the first Canadian station would be in operation by the end of next year.

## 'Mutiny' Vessel Docks At New York

NEW YORK (AP)—The 7,000-ton freighter William Carson, from which a false "mutiny" was broadcast by an apparently crazed radioman who later jumped overboard to his death, docked here Sunday.

On July 12, U.S. Naval ships picked up an SOS call from the ship, reading: "Crew mutinous. Cannot control. Come at once."

Four days later, a boarding party from the U.S. destroyer George K. MacKenzie climbed aboard the craft only to find a surprised but orderly crew.

## RUSTY RILEY

## Saanich Ratepayers Reject Important By-Laws; Apathy Of Voters Criticized

"Apparently there is a strong element in Saanich who want to keep their municipality in the 'backwoods class' and not move in the march of progress like practically every other community, big and small, on the island," said Reeve E. C. Warren following defeat of two important money by-laws voted on Saturday in the municipality.

While the majority of ratepayers who exercised their franchise wanted both the \$495,000 through-road reconstruction and improvement program for the whole of Saanich and the \$355,000 water distribution scheme for Brentwood and area, they were defeated by narrow margins due to the requirement of a three-fifths majority recorded in the "yes" column.

The votes were:  
Road by-law—Yes, 1,199; no, 1,101, and 1,380 votes were needed to pass it.

Brentwood water by-law—Yes, 217; no, 171, and 233 votes were needed to pass it.

Brentwood and district ratepayers turned out in their strongest numbers to cast ballots, but the count was still 16 short of attaining the water by-law passage.

The turnout to the polling stations throughout the municipality, however, was on the slim side. A total of 13,500 were eligible to vote and only 2,300 persons cast ballots.

There was general disappointment voiced in the ranks of Saanich Council over the poor turnout of voters and the defeat of the two by-laws. Thousands of dollars and weeks of preparation were required to set up the

machinery to present the by-laws.

**BRENTWOOD WILL HAVE TO WAIT**  
Reeve Warren was extremely sorry to see Brentwood people turn down their water by-law. The ratepayers in that area have turned down several other by-laws to improve their water supply in the past.

He said Saanich has the greatest possibilities as an area on the Pacific coast if it had an adequate water supply.

"People in that area will just have to wait now. The engineer's department has its hands full to try and improve the supply for the higher areas in the municipality which have suffered acutely from lack of supply for many years," the reeve said.

He saw the apathy of the people in not voting as creating a dangerous situation in Canada today. He thanked those who exercised their franchise, but was critical of the big majority who did not.

"If people do not give more attention to the ballot I am afraid the future will see some minority group taking over control of the country," Reeve Warren said, "and then it will be too late to do anything about it."

At least Saanich Council was trying to do its best to produce a progressive municipality, he said.

In the defeat of the road program by-law, the reeve said Saanich will now just have to putter along at its present pace of \$12,000 a year per ward to keep up its roads.

"That is impossible," he declared.

Councillor W. C. Kersey, councillor for Ward 6, said today that the defeat of the water

scheme in Brentwood and district "has set back that area 10 years."

"They have lost a golden opportunity to get a system that is already set up for use. They do not seem to realize that if a pumping station had to be installed and pipes laid from the Elk Lake source it would have cost them almost twice what the money by-law called for," Councillor Kersey said.

"That machinery already set up to get a water supply from Elk Lake cost the government more than \$750,000," he added. "In defeating the by-law they lost their last opportunity for some time to get fire protection and to build up land values."

He said it would cost people more to put in wells than the by-law would have cost individual property.

"Another thing people there should have pointed out to them is that the water level is dropping year by year for well users," Mr. Kersey said.

He told of one farmer on Clark Road who 10 or 12 years ago could water six cows from his well.

"Today that same well will not produce enough water required for household purposes," Mr. Kersey said.

H. D. Dawson, municipal engineer, considers passage of the two by-laws would have been a great financial investment for Saanich—would have produced fine financial returns.

Mr. Dawson said he supposed the council and his department would now continue to hear complaints from Brentwood area of children going to school carrying their own water and about children having to go bathtubs due to the lack of water.

Thomas I. Rathe, well-known hotelman and former assistant manager at the Empress Hotel here, has been appointed credit manager of the Laurentian Hotel in Montreal, it is announced by J. Gordon McMichael, general manager of the Laurentian. The appointment occurs as Mr. Rathe reaches his quarter-century mark in the hotel business. Born in Ayr, Ont., Mr. Rathe started his hotel career in Montreal, and

## Spiritual Malaise Hits British Youth, Says Montgomery

LONDON (AP) — Field Marshal Viscount Montgomery diagnoses the present feeling of British youth as "spiritual malaise."

"Uncertainty, ignorance and fear are widespread among young people," he told a meeting of young parents, organized by the Mothers' Union.

"This is a disease of morale," he said. "It is a sickness of our national character and must be treated as such."

"I consider that we older people have two main tasks: First, to devote the remaining years of our lives to such work

as will tend to make wars less frequent, secondly, to so train the younger generations that they will be able to handle the things that lie ahead."

Viscount Montgomery sees youth inclined to be intolerant and critical of its elders, observing there had been two major wars in modern times, "both of them probably brought on by unpreparedness and, after each of them, a total failure to realize the benefits which it was promised victory would bring."

"The young are suffering from a profound feeling not of insecurity of what, for want of a better word, I call uncertainty. This feeling robs them of the spirit of adventure and perhaps of their self-confidence."

"I think the absence of faith, combined with the menacing pressure of world events which seem too vast to be comprehended, may have disastrous results unless we are very careful."

Viscount Montgomery believes "the first and most important place where cure must begin is in the family... the woman's job of laying the foundations of faith, character, and morale in the home is the foundation on which our whole national structure rests."

### ANNOUNCEMENTS

**A date to remember. Thursday, August 5.** Garden party, Admirals House, Esquimalt. Meet your friends and enjoy afternoon tea amid beautiful surroundings. Come and have fun. W.A.'s to Canadian Legion, Zone Council, South Vancouver Island. Admission 25c.

# Britain, U.S. Cut Off Trains To Soviet Zone

BERLIN (AP)—The United States and Britain banned movements of trains today to and from the Russian zone of Germany. United States officials said "technical difficulties" had caused the stoppage.

The joint Anglo-American action appeared to be the most positive counter-move yet taken by the Western Allies to break the Russian blockade of Berlin, now a month old.

Gen. Sir Brian Robertson and Gen. Lucius D. Clay, the British and U.S. military governors, took the action at a conference in Frankfurt. The restrictions are effective at once. The prohibition is against the movement of all trains "originating or terminating" in the Soviet zone.

When the Russians stopped traffic on the long railway between Berlin and the western zones of Germany, they asserted "technical difficulties" were the cause.

In another development, the Berlin city government ordered the dismissal of Police President Paul Markgraf, who was appointed to his position by the Russians in 1945.

Dr. Ferdinand Friedensburg, Deputy Mayor of Berlin, said he had handed Markgraf a letter of dismissal, ordering him to turn over his office to his assistant. The move is expected to have wide repercussions in this four-power city.

Officials of the Railway Department of the provincial government said today they had heard of no such talks.

"It's news to us," spokesmen stated.

British and French authorities reportedly had expressed willingness earlier to confer on all of Germany. Gen. Lucius D. Clay, American Military Governor for Germany, indicated Saturday night that the United States had swung into line with the British and French positions.

Clay, just back from Washington, said the United States was prepared to negotiate on all of Germany, but "not under duress." By duress he referred to the Soviet blockade of Berlin.

He said he believed the Russians had not committed themselves so far that they could not lift the blockade. Clay indicated the western powers also might be willing to discuss a new proposal on currency, if necessary, in order to reach an agreement on breaking the blockade.

When the western powers introduced a new currency in their zones, the Russians sealed off their zone to prevent a flood of worthless marks from entering eastern Germany.

High United States diplomatic officials huddled in London with British and French representatives to chart new strategy on the Russian blockade following a conference here Sunday.

All indications pointed to acceptance by Britain, the United States and France of a Russian demand for a new conference on all of Germany. In London and Berlin reports circulated of a new big four Foreign Ministers conference or a meeting of Prime Minister Attlee, President Truman and Prime Minister Stalin

## Talks Reported On Railways To Alaska Via B.C.

SPOKANE (AP)—The Spokesman-Review said Sunday night Canadian railway officials and representatives of a U.S. group have begun discussion which may result "within a year" in construction of two rail connections between Alaska and the continental United States.

The newspaper said the discussions began several weeks ago and involved the Canadian Pacific and Canadian National Railways and "the American group that is negotiating with the province of British Columbia for purchase of the Pacific Great Eastern Railway."

The U.S. group was not further identified.

"If their plans are worked out, construction may be started within a year on a quadruple project that would give Alaska two rail connections with the United States through Canada and introduce rails to the Great Bear Lake mining area in the Northwest Territories," the newspaper said.

The commission's working committee approved by a 9-2 vote a British-U.S. resolution saying peace must be made with Germany and Japan before arms can be effectively controlled.

Russia and the Soviet Ukraine voted against the majority.

The committee decided to meet again next Monday to write its report to the Security Council.

Delegates said, however, that the commission's work is virtually ended until the international picture changes.

LAKE SUCCESS (CP)—The United Nations commission on conventional armaments virtually gave up today all efforts to regulate arms until peace is made.

GASPE, Que. CP.—Words are puny instruments to describe the scene of the crash which took 29 lives Saturday afternoon in the worst disaster in Canada's aviation history.

Smoke mingled with the smell of burning flesh. Above the mangled wreckage of the burned-out DC-3 aircraft which had left Anticosti Island only a few hours previously smoke hovered in the air.

It was nauseating. I pushed my way through hundreds of people who, like myself, had thrashed their way through two miles of thick bush country to reach the scene.

It was terrible to think these 29 people died only a dozen or so miles short of their scheduled landing place at the town of Gaspe.

WING TORN OFF

A half-mile from the main wreckage I saw a torn and twisted wing, apparently ripped off by the thick trees as the DC-3 crashed.

The wing had sheared off tops of trees.

About the main wreckage it was a scene of desolation, burned-out metal. And over it all was the smell of death.

As I struggled along the bush route to the destroyed plane I passed groups of tired Gaspesians who had preceded me to bring out the bodies.

They were struggling with stretchers along a trail to the main road, and bore the burned bodies of the victims.

Once on the main road they turned the bodies over to private automobiles, which were running a grim shuttle service to the hospital in Gaspe. All the victims were beyond the help of a hospital.

The crowd was so dense around the wreckage that it was difficult to push a way to the inner circle around the ripped and burned patch of forest where rested the main part of the fuselage.

An organized search party was scouring the area for identifying signs, collecting dismembered parts of victims' bodies.

Constable Jack Lockie, B.C. police, said Clark was dead and the two other men had been taken to hospital when he arrived at the scene.

The constable said there was

## Victim In Highway Crash Blamed By Coroner's Jury

A coroner's jury today decided the death of Edwin H. Clark, 42, of 1828 Adanac Street, in an accident July 17 on the Sooke Road near Colwood was due to his own neglect.

Presided over by Dr. E. C. Hart, inquest was held at Sands Mortuary Ltd.

The seven-man jury was told Clark died instantly when the late-model sedan he was driving toward town smashed into another driven in the opposite direction by Thomas Parsons, 56, Albert Head Road.

ONE EYE-WITNESS

Only eye-witness to the collision was John McRoberts, 1121 McClure Street. Neither Parsons nor Edward Fisher, 1828 Adanac Street, passenger in the deceased's car, could give the jury any facts relating to the crash, in which both cars were demolished.

McRoberts said he was proceeding about 25 yards behind the Parsons car in the same direction, speed of his and the other vehicle about 20 to 25 miles an hour.

Witness said he saw Clark's car coming over a rise toward them at a "terrific speed."

"Then came the impact and glass and parts of the cars were thrown in all directions," he said.

Constable Jack Lockie, B.C. police, said Clark was dead and the two other men had been taken to hospital when he arrived at the scene.

The constable said there was

a 52-foot skid mark leading up to the Clark car.

Impact, he said, occurred on grass off the road on Clark's wrong side. After the crash the Clark car continued on for 32 feet before coming to a halt, turned opposite to the direction from which it had been coming.

Fisher, his head in bandages, said he fell asleep in Clark's car shortly after they left Sooke, where they worked together.

"Next thing I remember is when I woke up in hospital," he said.

He said Clark always drove carefully.

JURY TO HOSPITAL

The jury went to St. Joseph's Hospital to hear evidence from Parsons, who is recovering from a fractured pelvis and other injuries.

Jury was composed of H. Gladding, foreman; W. E. Taylor, E. Lorne Fuller, G. L. D. Smith, George Brewster, J. Meikle and J. W. Lott.

## WALLACE THE DREAMER

WHEN HE LET HIMSELF GO IN ACCEPTING the nomination of the Progressive Party as its presidential candidate at Philadelphia last Saturday night, Mr. Henry Wallace, one-time Vice-President of the United States and a former member of Mr. Roosevelt's and Mr. Truman's cabinets, demonstrated that his eloquence was much more forceful than his logic. Listening to him over the airways, and remembering what his basic philosophy always had been, one wondered why such an ardent disciple of freedom in its true sense could advocate implicit trust in a nation whose acts prior to and since the Second World War have negated all the fundamental principles of liberty for which the "founding fathers" stood. Yet he seemed to be attempting to persuade the American people that if only they would trust Stalin and Company all would be well.

As we have remarked in these columns many times, the manner in which our neighbors conduct their political affairs is not our business. But we feel sure that no liberty-loving citizen of the United States would object to a Canadian suggestion that a policy of appeasement, whether fathered or condoned by the wealthiest nation on this troubled planet, would be just as foolish and just as tragic as the "deal" at Munich nearly a decade ago turned out to be. We speak of the fate of Czechoslovakia feelingly because this was one of the very few newspapers in Canada which did not hesitate to deplore the weak-kneed attitude of Chamberlain and Daladier in the ancient Bavarian city. And how we were criticized in numerous and anonymous ways for the stand we took on that occasion!

In the light of history, therefore, how comes it that Mr. Wallace is so ready to trust, Stalin, the man who heads a government which not a single Muscovite dare stand on a street corner and criticize because if he or she did, the penalty would be prompt liquidation? The man who is to run for President of the United States under the banner of the Progressive Party knows this to be true as well as his next-door neighbor. And what does he suggest as an inducement for the promotion of peace in the world?—the withdrawal of American and British troops from Berlin? How Stalin, Molotov, Vishinsky, and the rest of the regimentarians basking in the glint of the hammer and sickle must be laughing as they analyze Mr. Wallace's speech!

Unfortunately, of course, some Canadian columnists, some members of the alleged intelligentsia who are living on the fat of the land—a land which has given them a good living and security never dreamed of in the Russia of Peter the Great, the Romanoffs, and certainly not in the Russia with the Marxist-Lenin-Stalin atmosphere—will applaud Mr. Wallace for his bid for a new attempt at peace under the benign influence of the Kremlin of 1948. Our glassy-eyed dreamers might contemplate this point.

## THROUGH THE HOOP

TO THE FLOOD OF PUBLICATIONS, reviews, news letters and similar outpourings that reach our desk from the various information offices maintained in Ottawa by foreign countries, the propaganda pamphlets of the Yugoslav legation have added a persistent ideological ripple. Notices of diplomatic appointments affecting Canada and Yugoslavia have shared space with laudatory articles on Marshal Tito, self-congratulation on the progress of Communist plans, and occasional criticism of foreign reaction to Yugoslavian events.

Tito's relegation to the Communist dog house has produced some interesting results in the erstwhile straight party line publication. A hint of the break with the Cominform might have been read into a recent release of the press office which outdid itself in lavishing praise on the Yugoslav leader. The flattering references to "Tito our leader, Tito our master, the friend of the poor," and other ecumens reprinted from a Yugoslav essay reached a hysterical pitch unusual even in this partisan publication, and it can be easily seen in retrospect that it represented an attempt to whip up enthusiasm for Tito in his home country to counteract the Cominform's expected adverse criticism.

The most striking reflection of current events, however, is found in the latest issue of the news letter, which contains a "statement by the Information Office of the Yugoslav Government," rebuking certain foreign publications for "giving place to totally fabricated news and slanderous reports" on the Adriatic country. And it was with a sense of unreality that we read the charges of misrepresentation and libel which this Communist nation leveled against "the organ of the Communist Party of Czechoslovakia," "the Communist Party paper of France," "the Communist Party paper of Italy," and "the organ of the Bulgarian Workers Party." All these, along with a few "capitalist press" representatives, were accused of "fabrications and slanders aimed at

the lowering of the prestige which Yugoslavia enjoys among the democratic masses of the world."

Employment by a Yugoslavian government publication of such terms in reference to former close friends and confederates could only be paralleled by a cardinal's denunciation of the Pope or a public condemnation by King George of the institution of the monarchy. Or we might say that it is matched only by the spectacle of the Communist organs mentioned turning so rapidly on the country to which they recently gave such rabid support. The masters speak, the whips crack, and the trained animals go into their act.

## IGNORANCE BEHIND A MASK

WE AGREE AT THE OUTSET THAT the problem of the Ku Klux Klan is one for the United States, to settle in its own way, and that outside advice on how to handle the question is not welcomed. Our remarks are therefore confined strictly to the comment of a neighbor who sees a strange manifestation next door and is moved to deplore its appearance.

We refer to the nocturnal doings described in a news dispatch which tells of a meeting in Georgia of several thousand white-robed Klansmen, complete with fiery cross, to initiate 700 new recruits. It appears that the sheeted members have evolved a national head with national aims, dedicated to the maintenance of what they term "white supremacy." In the words of the news story, "They swore to uphold the constitution, protect southern womanhood, and pledged themselves not to commit rape, or treason against the United States." To the outside observer, these would seem to be aims sufficiently laudable not to require the protection of masks or lynching parties, and unlikely to inspire public opposition to the point where a secret organization was necessary. The need for group action, however, becomes clearer in view of the words of their national leader, Dr. Samuel Green.

Dr. Green, placing the constitution and womanhood in a secondary position, declared that the chief aim of the Klan was to maintain "white supremacy," and that if President Truman's plan for a civil rights program was enforced with bayonets, "blood will again flow in the streets." This, then, is why the members appear hooded and sheeted. It is not shame at taking part in what to any decent, liberal-minded citizen is a sordid, subversive thing. It is because at some future time it may be necessary to forget the pledge against treason, and take up arms against the government of the United States in an effort to halt a progressive, Christian development. Secrecy under such circumstances is much to be desired. We repeat, the problem of the Klan is one for the United States itself to solve. But education and enlightenment, should ultimately triumph over this backward and night-shirted segment of the population.

## CRACK-DOWN ON DRIVERS

SHORTLY AFTER HE HAD DELIVERED the stiffest sentence he has yet imposed for a traffic violation, Mr. A. I. Thomas, J.P., last week served clear notice of his intention to deal drastically with motorists whose recklessness is contributing to the high casualty rate on highways here. His warning should carry weight with all who take chances on the road. If they can be impressed only by jail sentences and heavy fines, then that is the manner in which the authorities will have to cope with this menace to life and property. The vast majority of automobile accidents could have been prevented. In many instances sheer carelessness and heedless disregard for others contribute substantially to the toll that is exacted on the highway. The stand taken by Mr. Thomas should be a potent reminder to those who are guilty of these lapses. It should influence them to exert greater care and to extend greater courtesies to others as they operate their vehicles.

## WIDE OPEN MINDS

THE AVERAGE RESIDENT OF THIS country has become sufficiently acquainted with natural phenomena to be able to express considerable disbelief when confronted with stories of sea serpents or other monsters of land or water. He may like to toy with the idea of such creatures, but his reason causes him to disparage claims regarding their existence. The modern world, however, has been so productive of mechanical wonders that the normal citizen will feel greater reluctance to dismiss reports of man-made monsters. He has seen or heard enough in the line of scientific achievement to prepare him to believe almost anything is possible in that realm.

Consequently, the report of two American transport flyers that they saw in the southern skies a 100-foot, brightly lighted, double-decked, wingless craft travelling at 500 to 700 miles an hour with a blast of red flame coming from the rear and a blue glow lighting the under side, will be received with a fair amount of credence on the part of the public. The "Buck Rogers" ship may have been a more orthodox aircraft seen through excited eyes, it may have been a complete hallucination, or it may have been exactly as described by the airmen. Radar, jet planes and similar inventions have prepared the mind of man to receive almost any new development. Whether driven by Martians or some of our own boys, we are half convinced the strange craft is possible, even without hearing any more details.

Why talk so much about handling labor-management crises? The real problem is how to work together, for mutual profit, and prevent any crisis.

## Canada In The Entente

Col. Wallace Goforth, former director of Weapons Research for the Canadian Army, gives a Canadian view on Commonwealth strategy in an article written for London Sunday Times and reproduced here by special arrangement. The article is divided into two parts, the second of which will appear in this column tomorrow.

CANADA HAS TRAVELED a long way on the hard road towards realism and interdependent thinking on Imperial defence, from the opening years of the 20th century, when British regular garrisons still shared the fortresses of Esquimalt and Halifax. These were presumably needed, even at so late a date, to protect the sprawling oldest daughter of England from alarms and invasion.

The firm shield of the Royal Navy then guarded every seaward approach to Canada's soil, including the remote waters of the Arctic into which the Admiralty sent more than 30 ships during the middle decades of the 19th century. The same sea-power ensured that the trade of Canada, always a third or more of her national income, moved safely to and from the far places of the earth mainly in British ships.

OUT OF TWO WORLD WARS, during which Canada called to the colors well over a million and a half of her youth,—and of these sent a million into overseas combat—has come a clearer vision and more self-reliant outlook on her own problem of security. Two world wars have led the Canadian people to realize how intimately the safety of Canada is bound up with the safety of Britain and western Europe. Moreover, Canada's population has grown from five to 12½ million in the past 50 years, and her real annual income has increased fivefold in the same period. There is now, in short, some solid substance to her claim of being a leading middle power.

The Commonwealth Air Training Plan of World War II, plus the far-flung wartime operations of the R.C.A.F., spread the consciousness of modern airpower into every bush, mining camp and prairie schoolhouse.

ONE THING is grasped by Canadians today, perhaps more fully than by their governments, namely, that they have lost forever any choice of isolation which they may have had in the past. No longer can any Anglo-American super-screen of sea-air power ensure this Dominion against sudden, unprovoked and destructive attack by the long-range bombers of an enemy, or by his airborne assault of such key northwestern cities as Edmonton and Calgary.

The once sure barrier of an ice-bound Arctic now looms as the hopeful pathway of future airborne commerce, or alternatively as the main highway of sudden war. Canada, in effect, has become a buffer on the direct line between the two major military powers of the world.

FRENCH-SPEAKING Canadians—one-third of our people and always the hard core of isolationist sentiment—now see a potential threat which they can understand and measure. It is no longer a remote menace to distant and, to them, sometimes distasteful imperial bonds. It is a Damoclean sword which hovers over *la terre, la foi et la patrie canadienne*. As they rallied to Montcalm for the Battle of the Plains of Abraham in 1759, or to the British flag for the Battle of Chateaugay in the war of 1812, so they are ready to muster today for any defence of New France that may be needed.

Because Canada has an area about equal to that of all Europe, including Russia west of the Urals, her defence against positive attack, whether by weapons of the present or of the farther future, cannot be achieved by any localized military pattern within Canadian borders. At best, Canada is both a flank guard for, and an integral part of, the industrial and agricultural heartland of North America, upon which any Western Entente,—political, economic or military—must in future depend.

EVEN THOUGH WE PRIZE—and will staunchly cling to—our identity as a nation, and our siltken ties with the British Commonwealth, Canadians know, during war or under menace of war, that there can be no dividing line between the military and industrial efforts of the United States and of their own country. The Hyde Park Agreement of 1941 closely integrated the war economies of Canada and the United States, rendering possible a degree of financial aid—in gifts and credits—by Canada to Britain and other allies, which was greater per capita than the lease-lend operations of her southern neighbor.

In any future war, or threat of war, a second Hyde Park Agreement would inevitably be concluded from the outset, since in World War II its defence and economic benefits proved to be at least as great to the United States as to Canada. This is inherently implied in the Ogdensburg Agreement on the permanent joint defence of the North American continent, which continues in force even during peace.

CANADIANS—perhaps more than their American cousins—know now that the real frontiers to be defended, peacefully if possible but by force if necessary, stretch from Spitzbergen, North Cape, and the Baltic, along the Middle Elbe, through Trieste, the Macedonian Hills, the Bosphorus, the Turko-Iranian frontier with the Caucasus, the Pamirs to the Yellow Sea and the Behring Straits. They realize, too, that the western zones of Berlin constitute an outer bastion of this defensive belt which cannot be abandoned without an ultimate resort to arms.

## Plenty Of Rope, But Not Too Much!

## U.S. Following Adopts Time-Saver In Court

A NEW court procedure called "pre-trial" establishes, before formal trial, the essential points of any case on which the opposing lawyers agree. Such agreements often lead to a settlement which makes formal trial unnecessary. Even if no settlement is reached, the pre-trial agreements speed the administration of justice by eliminating many nuisance cases, long delays, emotional appeals to juries and the tripping of honest but nervous witnesses.

In The Reader's Digest for August, Frederic Sondern, Jr., hails pre-trial as "the most revolutionary innovation of the century in the American-tradition-encrusted, ponderous legal system. . . . Without infringing on the individual's rights, pre-trial cuts red tape and the professional legal trickery common in many courts. In the opinion of many lawyers and judges it is the firmest guarantee yet devised to assure us of true justice—not so much by the letter as by the spirit of the law."

### CONVERSATIONAL

Pre-trial is now operating in a large majority of United States federal courts, and the state courts are slowly following the high courts' example illustrating

how the method works, Sondern describes the functioning of the Pre-Trial and Assignments Court of the District of Columbia. "There are no witnesses, no jury. Without ceremony, the Justice asks questions, and each lawyer briefly sketches his case. The tone is conversational. The judge brushes aside quibblings and irrelevancies, reduces the arguments to essentials. In 20 minutes the average lawsuit is settled. In a single morning the court disposes of a calendar of litigation that would clog the district courts for weeks if tried under the old system."

### IN CASE OF DISPUTE

If pre-trial attorneys cannot agree on a settlement, the judge dictates an order which becomes the basis of the formal trial. Nothing agreed upon in pre-trial conversation can be disputed in the formal trial.

Originating in England in the 19th century, pre-trial was introduced to the United States in 1929 by two crusading judges of the Circuit Court of Michigan, in Detroit. Troubled because they were trying cases four years old, they began calling lawyers informally into their chambers to discuss settlements. As the back-

log of the trial calendar dropped from four years to 10 months, lawyers who had disapproved of the pre-trial system changed their attitudes. Clients, pleased with the straightforwardness of the new method, lost their fear of legal action.

Courts in other cities followed suit. In 1938 the U.S. Supreme Court, spurred by Chief Justice Hughes' interest in the experiment made pre-trial optional for federal judges. Since then, the article says, a group of the United States foremost judges and attorneys has been preaching the pre-trial gospel to bar associations.

### TIME SAVER

Illustrating the time-saving advantage of pre-trial, Sondern cites two similar auto accident suits. The first, tried under the old regime, consumed three days in court. The second took 10 minutes of pre-trial time; the formal trial lasted "barely an hour," and the jurors reached a verdict in 15 minutes.

The author contends that pre-trial is the doom of the ambulance-chasing lawyer who trumps up cases in the hope of extracting settlements from those who fear the expense and trouble of a court trial.

## Oxford Greeted Her With A Play

From London Calling

THREE CENTURIES AGO, it was the custom to entertain royal visitors to the universities with specially written dramatic performances. And, after a most successful diversion and pretty compliment to Princess Elizabeth, one could not help wondering how strange it is that nothing like it has been performed for royalty at Oxford since Charles I and Henrietta Maria were entertained in 1623.

### EARLY CONVENTION

The "Masque of Hope" was written and staged in the early convention of such things, with two presenters—Hope and her antagonist Fear. The theme was the release of England from fear and all its horrors by the allegorical characters of Joy, Labour, Liberty, Health, Knowledge, and a figure new to allegory—Young Sterling. Indeed, it was amateur theatricals at its best. In the morning, the last-minute preparations had that desperate quality combined with the feeling that everyone was having the time of his life.

The quadrangle held only 320 people, but many more than that must have seen the performance. Undergraduates stood on the roofs, and leaned out of the windows, looking down at the senior members of the university in their scarlet and black and cerise gowns, sitting either side of a small platform covered with a canopy for the Princess.

### SOUND OF TRUMPETS

A red carpet stretched from this platform right across the grassy stage to the actors' main entrance, where hung a curtain depicting a map of England. It was through this curtain that Her Royal Highness appeared to the sound of trumpets. She

crossed the stage, and her arrival marked the beginning of the masque. Again, true to convention, the person honored and complimented is, as it were, part

## Letters

### BUS TRANSPORTATION

Oak Bay and Shoal Bay folk have sent in petitions about the present bus service. It must be rather confusing for the transportation company; and matters are not improving.

Why not give us the same run that the Blue Line gave us? It seemed to satisfy everybody and was much simpler for all concerned.

PHILIP ELLIS  
200 King George Terrace.

### POINT OF VIEW

Every Englishman during his lifetime has had a desire at some portion of it at least to write to the Times, whether he has actually put his wish into effect or not. Now, in Victoria, I am writing to the Victoria Times to express my regret that the B.C. Electric, without any warning or explanation, has changed the Shoal Bay and Oak Bay routes.

Residents of Beach Drive and adjacent streets—Victoria, Monterey, Oliver and St. Patrick as well as other avenues—cannot now proceed to the city via Oak Bay, but must take the Gonzales bus via Ross Bay and Fairfield or walk from their homes to Central Avenue, a considerable distance.

Having recently moved to the Monterey-Beach Drive corner, it is very disappointing to have the bus service so curtailed.

J. E. J. ASTON.  
479 Monterey Avenue, Oak Bay.

of the performance. The masquers addressed themselves direct to the Princess:

"And therefore, first to you, rose of our English hedge, our wonder and applause, latest and loveliest doctor of our laws," declaimed Hope, dressed in white, with a rainbow scarf about her shoulders. It was scholarly but not too serious, for there was topicality in the characters, as well, especially in the introduction of a "spiv"—Blackmarket, a fantastic creature with a false-bottomed suitcase full of nylons, whisky, and silk. It goes without saying that Blackmarket is defeated in a comic battle with Young Sterling, as well as all the other grizzly, black-garbed characters.

A glance at the tell-tale acknowledgements on the program showed that we were certain to get some surprises, for gratitude was expressed for the loan of a horse and a large number of pigeons. We were not disappointed, and both behaved beautifully. A flight of pigeons was released and circled above our heads on the arrival of the classical figures of Hymen, Venus, and Neptune in a chariot. And the horse was a well-mannered mount for St. George, who spoke the closing oration of the masque.

### THE BELLS RANG OUT

Every advantage of performing in the open air was exploited. Knowledge made his entrance, most aptly, from a well and Clio, the muse of history, spoke from a statue niche high in the tower. The proceedings ended when the Princess had been presented with a bouquet and a copy of the play. And the bells of Oxford rang out as she left the quadrangle.

## Global Survey

By DeWITT MACKENZIE

Associated Press News Analyst

THE COLD WAR between Soviet Russia and the democracies had its genesis in ideology—aggressive communism bent on world conquest—but its outcome is going to be determined by economic factors.

Military power will play an important part, but that is based on economic well-being. As for ideology, man is given to thinking with his stomach. His ideological leanings are likely to be decisively influenced by the amount of food available for his family.

That is the significance of the Marshall Plan, and it dominates the whole crisis. The task of the democracies is to hold the present "military front" through central Europe to give the Marshall Plan time to put western Europe on its feet economically.

Actually the three major democracies in Germany, Britain, the United States and France, haven't anything like as great military strength in the field as has Russia. However, the potential striking-power which the democracies could develop is greater than that which the Soviet could produce in the same length of time. So we have a "cold" war instead of a "hot" one.

### HOLD THE LINE

The task of the democracies, therefore, is to hold along the so-called Stettin-Adriatic "battleground" across Europe while the Marshall Plan does its job.

There are many obstacles to be overcome. Among these is the natural fear in Paris that the rebirth of a strong Germany will again endanger France. However, safeguards for France will have to be worked out, since there is no question that an economically strong Germany is essential to European recovery.

Another snag has been struck in western Germany itself. The German leaders dislike the British-American-French idea of forming a government for the three zones occupied by Britain, America and France.

Still the Allies have been going ahead with the prospect, since the belief of their economic experts is that there must be a co-ordination of the three areas in order to achieve politico-economic strength.

### GET FUEL IN NOW

London (Ont.) Free Press

Rt. Hon. C. D. Howe, minister of trade and commerce, is concerned about the heat, he tells Ottawa newsmen.

But it's not the rays of the summer sun that bother him, it's the fuel to provide the warmth in Canadian homes next winter that is causing him worry.

Householders, he advises, should restock their coal bins now. And recalling the minister's warnings of past years concerning coal and fuel oil shortages and price advances, householders might well take heed.

### DOLLAR EARNER

Winnipeg Free Press

Leduc is being widely heralded as the biggest oil discovery since the opening of the Texas field and is claimed by some to be bigger than the latter.

Fully developed, and with the oil pipeline completed through Winnipeg to North Dakota, Leduc will prove a double dollar gainer for Canada. It will relieve western Canada of its dependence upon United States oil supplies and at the same time it will bring in dollars by supplying the South Dakota field.

Granted reserves are built up to a safe point and steel available for the pipeline, Leduc should be serving the west directly by 1950.

### APOLOGETICALLY FASHIONABLE

The Times of London

No family man, since the death of Sir Walter Gilbey, has had the courage to stand up in public for taking pride in being well-dressed. The wretched wearer of a new suit now slinks around, apologetically, hoping not to be mistaken for a spiv. This is natural, since the price of that suit might be confused with a full year's income tax demand, had not the absorptive capacity of the Inland Revenue kept buoyantly afloat on the rising tides of inflation. Growing children, unlike boys of clothing coupons, grow relentlessly. A copper-bottomed alibi is at the service of connoisseurs of veteran, carelessly trousers and costly worn-in shoes. The tolerant smile reserved for ladies who change their wardrobe at a crack of the designer's whip is so well justified by circumstance that it has positively assumed the air of being a civic virtue.

### PILE TORTURE

When you remove the cause of any trouble, a great amount of the work is done. That is why PILETONE is so successful in those formerly hopeless cases. Thousands have found one bottle to be sufficient. Mr. G. Blake, Edmonton, reports a slight return after 18 months but a few doses cleared it up again. Those are the results the new PILETONE TREATMENT is getting everywhere. You get results with first bottle or money refunded at once. \$1.75 at all drug stores.

## Quebec Campaign Nears End; Voters Go To Polls Wednesday

MONTREAL (CP)—A note of urgency crept into the Quebec election campaign Sunday night, with only 48 hours remaining before the July 28 voting day.

During the week-end party leaders contented themselves with rounding out their arguments, re-emphasizing main platform planks, trying to win over those last few votes that might make the difference in the close constituencies.

Tuesday night the speech-making will stop and the voters will take over. From 9 a.m. to 6.30 p.m. on Wednesday they will choose 92 legislators from 312 candidates. They will decide whether the Union Nationale government is to remain in power.

The campaign has been a lively one, typical of a province with a tradition of colorful political figures, of oratory in the grand manner.

### TAXATION DISCUSSION

The two major parties—Liberals and Union Nationale—have fought bitterly over whether Quebec should sign a taxation agreement with Ottawa—the kind of agreement signed by seven other provinces.

Premier Duplessis has said no—that Quebec, in a period of "unprecedented development," needs her tax fields and would lose financially on any such agreement. Further, to surrender her tax rights would be to lose Quebec's cherished provincial rights, to sell out to the "centralizers."

Liberal Leader Godbout and External Affairs Minister St. Laurent have said the province should sign, that no question of provincial rights is involved. They have accused the premier of manufacturing the issue to perpetuate himself in power.

### SOCIAL CREDIT TALK

Also in the thick of the fight is J. Ernest Gregoire's Union of Electors, advocating the orthodox social credit policies that appeared in Alberta during depression days. Like the Liberals, they are running a full slate of 92 candidates.

The Union Nationale is running 91 candidates, leaving Quebec County to Rene Chalout, a Nationalist. The C.C.F., led by Guy Merrill Desaulniers, has seven candidates, while the Labor-Progressive Party is running only its provincial leader—Gui L. Caron.

## Seek Permission To Form Auxiliary R.C.A.F. Squadron

Authority is being sought from Ottawa by an organizing committee here for permission to form an auxiliary R.C.A.F. squadron in Victoria. To date 114 men have registered their willingness to join the proposed squadron.

Action to form an auxiliary squadron was taken after Federal Fisheries Minister R. W. Mayhew said in Victoria recently that a squadron might be authorized if sufficient ground crew was mustered.

Among the men who volunteered to join the squadron were 22 aero engine and air frame mechanics, 20 pilots and several navigators and wireless air gunners. Others include flight engineers, electricians, meteorological observers, mechanics and radar mechanics.

Further applications may be addressed to Post Office Box 204.

## Shaw Quoted In Support Of Wallace

YORK, Pa. (AP)—The Gazette and Daily here said George Bernard Shaw, Irish playwright, has put his stamp of approval on Henry A. Wallace as only candidate for President of the U.S. "who is a social philosopher."

The York Morning newspaper, published by J. W. Gitt, Wallace chairman in Pennsylvania, printed the statement in an interview it said was obtained by Johannes Steel, its roving correspondent, from Shaw at his home in Ayot St. Lawrence, Hertfordshire, England.

The Gazette and Daily said the 92-year-old Irish wit said of the U.S. presidential race:

"Democrats and Republicans represent the same. Wallace is the man. Tell the American people that Shaw says Wallace is the only one among the candidates who is a social philosopher—the only man who can do something about the international situation because he knows something about it."

The newspaper said he added there are only three great men living in the world today.

"One of them is a great statesman—his name is Joseph Stalin. The second is a great mathematician, his name is Einstein. The third one is a great playwright—modesty forbids me from mentioning his name," he was quoted as saying.

## Frank Gregory Dies Suddenly

A senior member of the circulation department of the Daily Colonist, Frank W. E. Gregory, 45, died suddenly Saturday night, following a heart attack at the Langford Speedway, where he had gone with his wife to see the auto races.

Mr. Gregory, 2530 Central Avenue, was with the Colonist 32 years and was latterly in charge of country carrier circulation.

A native of England, he was brought to Canada while still a baby. He lived first at Fort William, Ont., and came to Victoria at the age of nine. In 1927 he was married to Irene Arnall.

Besides his widow, he leaves three cousins: Mrs. E. Kerchner, Mrs. Fred Harris and Mrs. L. Armstrong, all of Victoria. Funeral services will be held at Thomson Funeral Home Wednesday afternoon at 2, with interment at Royal Oak Burial Park.

Wallace Says His Party  
Has 'Just Begun To Roll'

PHILADELPHIA (AP)—Henry A. Wallace rolled his new Progressive Party today down a road he and his followers promised leads to give-and-take peace with Russia.

With an assertion that "we've just begun to roll," the third party Presidential nominee set out to plant in every state the seed of what he called a new political crusade.

It was born here in a boisterous, singing, shouting convention that ended Sunday night in 7½ hours of free-for-all debate over a party platform.

Wallace was glued to a television set while his friends were

adopting a platform placing "joint responsibility" on the United States and Russia to keep the peace.

The first Progressive Party convention picked Senator Glen Taylor of Idaho as No. 2 man on the third party Presidential ticket headed by Wallace.

Some of the delegates said they weren't in favor of endorsing Russia's policies 100 per cent, although all professed their friendship for the Soviet.

But Hugh Delacy of Seattle, a former Congressman, got the biggest hand and the biggest vote with a plea to delegates not to yield to "outside pressure" but to take a stand for "a firm, solid basis of friendship between the United States and the Soviet Union."

Wallace and Taylor took over official leadership of the new party at a colorful outdoor rally in Philadelphia's Shibe Park baseball grounds Saturday night.

A crowd of the faithful who paid about \$30,000 to get in and contributed about \$50,000 more in gifts, nearly mobbed Wallace, who said that if he were President, "there would be no crisis in Berlin today."

He suggested the U.S. troops be withdrawn from Berlin.

## City's Ruins Find Way To Airdrome

German children watch as U.S. army cranes and bulldozers load trucks with rubble, to be used as base for a new air strip at the Tempelhof Field, Berlin. While the Russians refused to break their blockade, work was rushed on the strip so it could be used for additional plane traffic carrying food and fuel. (Photo by Al Cocking, NEA-Acme staff correspondent—Telephoto.)

Horse Runs Away;  
Driver Injured

VANCOUVER (CP)—Dobbin went a'boobin' here Saturday afternoon and pitched his owner right into a hospital bed.

Ben Goldstep with his horse and junk wagon got mixed up in heavy Main Street traffic. An automobile gave the wagon a bunt and off went Dobbin, wagon and Goldstep down the street.

When they came to rest, Dobbin had his nose hard up against another automobile and Goldstep had his in the pavement. Goldstep's leg was injured. Dobbin's pride was hurt. And as for the man who started it all by bunting Dobbin in the first place—he just wasn't around.

Expect Record Year  
In Timber Output

This year's timber output in B.C. is expected to exceed last year's record, despite the loss of an estimated 75,000,000 board feet by fire and flood in June.

That's what officials of the industry report. They say the June loss is not too great for the year's output to go above the 2,545,000,000 board feet turned out in 1947.

In three Vancouver Island mill fires in which \$3,000,000 damage was done, 50,000,000 board feet of timber were lost. And in the Fraser Valley floods another 25,000,000 board feet were slashed from output totals.

The  
DOCTOR  
Says:TEACH CHILDREN TO  
CHOOSE GOOD MEALS

Proper food selection should be taught children at an early age, to make them aware of its necessity, and its relationship to good health.

The nutritional education of the American people has developed enormously in the last five years, largely as a result of the war effort and of improved economic conditions.

Until they reach the age of 10 or 12, children have little opportunity to select their own food unless their parents are aware of the desirability of their learning to do so. The school lunch program has been an important element in directing the attention of parents and children to the importance of proper food selection.

Children should acquire early in life a willingness to accept pasteurized milk, the ordinary vegetables (cooked or raw), fruits, whole-grained cereals and breads, eggs and simple desserts. Children who are sweet-lovers usually eat an inadequate diet, for normal children seldom crave sweets.

The school day should start with a good breakfast consisting of pasteurized milk, tomato juice or a citrus fruit, an egg, and a whole-grain cereal of toast. Coffee has no place in the diet of children, for it tends to displace milk.

## MAKE LUNCH NOURISHING

The school lunch should include pasteurized milk and a main dish of protein food, such as beans, eggs, macaroni or spaghetti made with cheese or meat. A thick meat soup is also a good main item, and it may contain some vegetable.

Whole-grain bread should be used for at least one sandwich if the lunch is carried, and the sandwich filler should be egg, cheese, meat, fowl, or peanut butter. Jelly and jam sandwiches or those made of spreads of little nutritive value, are not recommended for children.

The noon-day lunch whether carried or eaten at school, should contain vegetables and fruits.

Ice cream and fruit, not cake or cookies, are the best all-around desserts for growing children.

Question: Is the marriage of first cousins likely to result in defective children?

Answer: The marriage of closely related persons, including first cousins, may result in the development of superior children, if such characteristics are present in the family tree, or of defective children, if such characteristics are dominant.

## 25-Year Sentences

LONDON (AP)—Russian authorities arrested 21 members of an "underground terrorist diversionist group" who were working in the Soviet zone of Germany on orders of a foreign intelligence service, a Tass dispatch from Berlin said Friday night. The Soviet news agency dispatch said most of them were sentenced to 25 years' imprisonment each.

LADYSMITH—Sixty head of cattle, sires, cows and calves paraded in the show ring to compete in 20 classes at the Ladysmith Red and White Show.

Awarded the grand championship of the Ayrshire breed at the show was Capt. C. L. Anderson, Highland Ayrshire Farm, Cowichan Station. Awarded senior female championship was Capt. Anderson's winning animal, Highland Xmas.

The exhibits were a credit to any herd on the continent of North America. S. H. Shannon, O.B.E., Cloverdale, judge, said, John Kirkwood of Reading, England, a member of the British Ayrshire Council, assisted in judging.

Young boys and girls also participated in the show, parading their animals before the judges and taking part in the judging. Mrs. Agnes Steele of Neptune, Sask., past president of the South Saskatchewan Ayrshire Club, and a former well-known island exhibitor, presented prizes to the winners in the judging classes. They were: Under 21 years, Marie Cullen, George Nesbit, Alfred Hughes and Ronald McKay; Junior, under 14 years, Arthur Cox, Shirley La Fortune, Jeanne Ross and Louise Scofield. In Class 19, the best-fitted and shown calf owned by a member of the Provincial Calf Club, the winner was Betty Scofield, Ladysmith, who was presented with the Calf Club Trophy by Capt. Anderson, the donor.

The senior grand male champion, Fintry Diamond, was exhibited by Dawsondale Farm, Nanossee Bay.

Other exhibitors included Fairbridge Farm, Stanley Owens, D. C. Morton, Cmdr. G. S. Windeyer, G. G. Tomas, R. E. King, Tryon Bros., Jack Cairns, Cedar Calf Club and Cobble Hill Calf Club.

**NOTED BRITISHER ARRIVES**—When Sir Edward Peacock, C.G.V.O., Receiver-General of the Duchy of Cornwall and a director of the Canadian Pacific Railway and Hudson's Bay Company, reached Quebec on the liner Empress of Canada accompanied by his daughter, Miss Felicity Peacock, he was met by W. A. Mather, left, president of the C.P.R., and Capt. R. W. McMurray, right, managing director of Canadian Pacific Steamships. Sir Edward, who has made frequent trips to Canada, plans to visit the Pacific coast.

## Government To Study Means Of Boosting Butter Supplies

OTTAWA (CP)—The government is expected soon to explore the possibilities of expanding Canada's butter supplies.

Latest production and consumption figures are far from encouraging and it becomes more apparent with the release of each government report on the stock position that some steps will have to be taken before the snow flies.

True, it will be more than four months before winter, but only two of those months—August and September—lie in the period of heavy butter production. After that, production of milk, and the subsequent production of butter, will begin to dwindle.

**LAST WINTER'S EXPERIENCE**  
Observers—and Canadian housewives—recall that butter supplies became dangerously low last winter and that for a few weeks it was virtually impossible, in some of the larger centres, to come by a pound of butter. There is a fear that the same situation may develop next winter.

Just last week the Bureau of Statistics reported the total supply of butter—creamery, dairy and whey—was approximately 63,000,000 pounds at the end of June, down 10,500,000 pounds from the supply position a year ago. This, if anything, indicates a worsening of the position.

Production during June was higher than a year ago, up by 1,500,000 pounds to 44,500,000, but this was offset by an increase in consumption. For instance, domestic disappearance in June was nearly 32,000,000 pounds against 30,000,000 pounds in June, 1947.

There are several things the government could do. Dairy men say there would be more butter if it would either increase the price ceiling, thus providing a greater financial incentive, or if it could pay a subsidy to producers, which would have the same effect.

Another alternative would be

## McCormick, Chicago, Says Aristocrats Of Britain Rule World

PARIS (AP)—Col. Robert R. McCormick, publisher of the Chicago Tribune, said Saturday the British "aristocracy continues to direct the foreign policy of the United States and thereby rules the world."

At the same time, he said, "the Labor government misrules England."

McCormick, who arrived here on an air tour of Europe, made his statement in the course of a broadcast speech (over Chicago station WGN on a relay from Paris).

He said: "Today I feel sure that I hold the key not only to the Labor Party but to every other British phenomenon. It is that in Great Britain, ancestry is more important than accomplishment."

"The arrogance of the noble pervades the nation. The peers do devote themselves to the national interest. Their experience, hauteur and condescension have largely dominated diplomacy."

"The late Lord Lothian, for instance, had more influence on American foreign policy for a generation than any American."

McCormick said the present British Labor government "has done much harm to the have-nots without doing anything for the have-nots."

## HANDICRAFT NEWS FROM T.P.

## Grey Bag Morocco

Here at last is the shipment we've been waiting for. Direct from England, this is as fine a leather as we have ever seen. It's just the shade to match those shoes, so we suggest that you see it without delay. A Bond Street Bag Frame makes an ideal base for a bag of this superb leather. See these too.

## Rainbow-Hued Flowers, Gowns At Diamond-Meeds Wedding

Glad Tidings Tabernacle, decorated with baskets of gladioli in mauve and yellow, pink and white, the colors repeated in rustling taffeta gowns worn by a quartette of bridal attendants, was a colorful setting for the marriage Saturday evening of Miss Evelyn Jean Meeds and Gordon Stewart Diamond.

The bride is the daughter of Mr. and Mrs. Harvey J. Meeds, 1321 Rudlin Street, formerly of Regina, Sask., and the groom's parents are Mr. and Mrs. Grant Diamond, 2470 Bowker Avenue.

Rev. John Watts, Los Angeles, assisted by Rev. E. Shindel, B.C. Bible Institute, performed the service and later friends and relatives attended a reception at the "Goblin."

For the ceremony in which her father gave her in marriage, the bride wore traditional satin distinguished with French lace at the slim waistline, and satin roses gracing the skirt. A coronet of orange blossoms held her long veil of misty illusion net, and she wore a pearl necklace, gift of her groom. Her bouquet was of white gladioli and scarlet lilies.

Honor matron was Mrs. H. Draper, in daffodil yellow whisper taffeta, with bonnet and gloves of mauve. Misses Gladys Tingstad and Edna Williams,

bridesmaids, wore full-skirted gowns of green and mauve respectively, with hats and gloves in yellow.

The groom's small sister, Ruth Diamond, was frocked in petal pink taffeta made with lace yoke. All carried Colonial bouquets of blossoms to match their dresses, and wore pearl necklaces.

Bob Diamond was best man for his brother, and another brother, Don, with George Hunt, ushered guests to their seats.

Len Mall sang "The Lord's Prayer" at the beginning of the service, and "Because" was sung by Miss Noreen Parker, while the register was being signed.

Bob Mitchell proposed the toast to the newlyweds at the reception, where Mrs. Meeds and Mrs. Diamond assisted in receiving guests.

An ecrû lace cloth, made by the bride's mother, covered the table where a three-tier cake, topped with pink roses, was cut by the young couple.

Mr. and Mrs. Diamond are motoring to Portland, Oregon, on their wedding trip and will make their home at 1547 Foul Bay Road on return. The bride wore a white three-quarter length coat over her turquoise suit, and corsage bouquet of gardenias and pink roses.

### Telephone Operator Really 'Hangs Up'

RIPLEY, Me. (AP)—The romance of this town's only telephone operator was causing a lot of talk today—but it was all by word of mouth.

Just before the operator, Mrs. Winifred Hatch, 57, left town, she cut all the wires on a switchboard she owned, silencing the 63-hand-crank telephones.

That happened more than a week ago when Mrs. Hatch told friends: "I'm tired of this 'number, please' business."

Mrs. Hatch and her neighbor, Charles Johnston, 58, filed marriage intentions July 1. All friends know is that Mrs. Hatch said she was going away for a few days.

Then she hung up.

## Delegate To International Convention

Mrs. A. M. Robertson, president, Soroptimist Club of Victoria.—Photo by Leonard Holmes.

Leaving Victoria next Sunday, Mrs. Robertson will journey to New York to join Mrs. Anna Sprott, president of the Vancouver Soroptimist Club, who is already in eastern Canada attending the biennial convention of the American Federation of Soroptimist Clubs in Toronto this week.

The two western presidents, traveling together, will sail for England on Aug. 6 to attend an international conference of Soroptimist clubs at Harrogate, Aug. 14 to 21.

This will be the first world gathering of Soroptimist Clubs in 10 years, the last conference being held in Paris just prior to the war. At that time, Mrs. Robertson was also Victoria's delegate.

At the Harrogate sessions it is expected there will be 100 Canadian and United States delegates; 200 from all over Europe and 1,000 from the British Isles.

There are 360 Soroptimist clubs in Canada and United States. At the biennial session in Toronto this week—the first in the 27-year history of the organization to be held on Canadian soil—some 500 delegates will discuss their service activities, on the international, national and

local levels, feeling that once understanding has been achieved, action will be easy.

Theme of both biennial and international meetings is "Working for the World We Want."

Following the international meeting, Mrs. Robertson and Mrs. Sprott will visit Soroptimist clubs in the British Isles as far north as Inverness, Scotland. Mrs. Robertson will then visit relatives for six weeks and Mrs. Sprott will go on to western Europe to visit clubs at The Hague, Copenhagen and Paris.

They will meet again in London for a week, prior to sailing together aboard the Queen Elizabeth on Oct. 16 for Canada. Mrs. Robertson expects to be in Victoria again about the end of October.

## Vancouver Rites For Maxine Lock

St. Andrew Wesley Church, Vancouver, B.C., was the scene of a very quiet wedding July 17 at 7:30, when Maxine Lock, daughter of M. C. H. Greene, 2864 Colquhoun Avenue, and the late Mrs. Greene, became the bride of Frederick Weir Hiller, Vancouver, son of Mr. and Mrs. B. G. Hiller, Harris, Sask. Dr. H. M. Morrow officiated.

Given in marriage by her father, the bride wore a bluish pink crepe afternoon dress, smart with cocoa brown accessories, and corsage bouquet of brown orchids.

Mr. and Mrs. William Jaffray attended the couple, Mrs. Jaffray wearing a cool white suit with red roses on corsage.

Mr. Jaffray gave the toast to the bride at a reception at her home at Strathmore Lodge, Vancouver. Miss Mildred Rutherford assisted her niece in receiving guests.

Following their honeymoon by motor through northern United States and Okanagan Valley, Mr. and Mrs. Hiller will make their home in Vancouver.

The bride wore her groom's gift of sable fur with her traveling suit of ruby red and accessories of cocoa brown.

## Girl Guide Notes

Tillamook—Girl Guides of Tillamook Company, hiked to Willows Park and Miss Phyllis Sheffield examined Diana Wilson and Trellis Frame for first class hike and use of compass, both girls passing the tests. Other tests completed were fire lighting, by Faye Phillips and Pat Murphy, and tracking for Pat Murphy, Margery Jones and Carole Mills. Captain of the company joined the guides later for campfire and story telling.

Special Lecture—Dr. W. E. Blatz of the Institute of Child Study at Toronto, will speak at Victoria High School on Wednesday at 8 p.m. His subject will be "How to Live With Your Children." This lecture is of special interest to all members of P.T.A. groups.

## Personal Notes

Miss Margaret Bailey of Calgary was among guests attending the marriage of Miss Rosetta Moors and Mr. Ralph Wainwright which took place at Colwood.

Mr. and Mrs. Murray Cree, Regina, Sask., accompanied by their children Heather and Murray Athol, are in the city for a short holiday.

Miss Helen Bouvier left by plane Sunday morning for Regina and Moose Jaw, Sask., where she will visit relatives and friends for several weeks.

Mr. and Mrs. T. Harper, 58 Linden Avenue, had as their week-end guests, Mr. A. V. Cooper, Vancouver, and Mrs. L. Easley, Saskatoon.

Mr. and Mrs. E. F. LeQueune and their sons, Jack and Allan, have returned to their home on Leigh Road, Langford Lake, following a holiday at Parksville.

Mr. and Mrs. Kenneth B. Hinks and their two children, Donald and Sheila, who have been vacationing at Island Hall, Parksville, have now returned to their home on Burnside Road.

Mrs. B. Weir with her children, Tommie and Doraleen, of Seattle are visiting Mrs. Weir's parents, Mr. and Mrs. R. A. Couzens, 401 Obed Avenue, recently of Moose Jaw, Sask.

Mrs. Daniel Morgan, Spokane, Wash., and Mrs. B. Gifford, Portland, Ore., are visiting the former's son and daughter-in-law, Mr. and Mrs. Lloyd Morgan at The Priory Guest House. The visitors are en route to Alaska.

Dr. C. Y. Hopkins, in charge of the protective coatings section, Division of Chemistry, National Research Council of Canada, and E. V. Gibbons, associate research officer, Division of Building Research, were visitors in the city on the week-end, the guests of H. Brown Ruse, 2736 Scott Street.

Miss Elenore Straith, daughter of Mr. and Mrs. Alex Straith, is vacationing in Seattle, the guest of Miss Nancy Adams, who earlier this month was Miss Straith's guest in Victoria. In August the two young friends will attend the North Star International Girls' Camp on Lopez Island in the San Juan group.

Dr. and Mrs. L. L. Ptak, 1003 Richmond Avenue, have as guests Dr. Ptak's parents, Mr. and Mrs. J. F. Ptak, and his brother-in-law and sister, Mr. and Mrs. Frank Raska, of Omaha, Nebraska. The visitors, who motored through Yellowstone, National Park, en route, will spend three weeks here.

Among guests attending the marriage of Miss Evelyn Jean Meeds and Mr. Gordon Stewart Diamond, Saturday evening, were Mr. and Mrs. W. Meeds, Regina, Sask., Mr. and Mrs. A. Kent, Vancouver, Rev. and Mrs. J. Watts, Los Angeles, Mrs. Faye Bradley, Big River, Sask., and Mrs. E. McLean and Claudia, New Westminster.

Julie Dean were the names given the daughter of Mr. and Mrs. W. H. Forrest Sunday at 3, in a christening ceremony at the Forrest residence, 1460 Bromley Place. The babe's grandfather, Mr. G. W. Bryan, came from Ottawa to attend the ceremony, conducted by Rev. John A. Doyle, and godparents are Mr. and Mrs. D. E. McLeod, of Vancouver. Tea was served later, with Mrs. Robin Ritchie presiding at the urn.

Among Victoria guests who have been staying at Shawigan Beach Hotel are: Mr. and Mrs. W. B. Monteith, Mr. and Mrs. Dennis Harris and Pamela; Mr. and Mrs. Arthur Burr, Mr. and Mrs. F. D. Campbell, Mr. and Mrs. A. Partridge and Michael, Mrs. F. G. Bishop with Janet and Derek, Mr. John Armour, Mr. David Stock, Mr. and Mrs. Wilson Loudoun, Mr. and Mrs. J. M. Ogilvie, Mrs. Dorothy Carr and Donna and Mr. R. N. Turner.

Among those registered at The Priory Guest House, are Mr. and Mrs. R. Ruggarita and their daughter Marie, Oakland, Calif.; Mr. and Mrs. K. Lane Johnson with their daughter Geraldine, Yakima, Wash.; Mrs. Ruby F. Mascart, Redlands, Calif.; Mrs. Mabel E. Eason, Glendale, Calif.; Miss Caroline Hancock, New Meadows, Idaho; Mr. and Mrs. W. H. Ratcliff, Berkeley, Calif.; and Mr. and Mrs. H. T. Latter, Winnipeg, Man.

Miss Ruth Jackson was honored at a shower given by Miss Madge Hamilton in the clubroom of the Y.W.C.A. Friday evening. A gayly-decorated umbrella held many gifts for the bride-elect who was presented with a gardenia and rosebud corsage bouquet. During the evening, refreshments were served. Guests included Mesdames R. Filliphuk, N. Glancy, and Misses F. Kennedy, H. Lee, I. Bing-Wo, T. Porter, J. Colman, B. Bollen, L. Washburn, D. Watson, M. James, S. Laughton, J. Morley and Y. Fisher.

## Club Calendar

Neighborhood club, picnic at Willows Park, Wednesday at 3.

## Organ Recital Planned

Following the Summer Evening song at St. George's Church, Cadboro Bay, Aug. 1, Leslie Pott, Oakville Ont., who is visiting in the city, will entertain at an organ recital. Miss Eva Hart will be the soloist and the concert will begin at 8.30.

## Mine Detector Used In Grosvenor Square, Find Woman's Money

LONDON (AP)—A wartime mine detector, sensitive to the presence of metal, will be used in a final effort to find the will of a secretive old lady who had a habit of hiding things.

She was Mrs. Daisy Alexander, who was 80 years old when she died of shock following a bomb explosion in 1940. She was the wealthy daughter of Isaac Singer, whose inventions and commercial astuteness created the Singer Sewing Machine Company.

For many years Mrs. Alexander had lived in Grosvenor Square, in an old house which she retained despite many efforts to evict her.

Her wealth was estimated at more than £3,000,000 (\$12,000,000), and income which she scarcely touched amounted to £40,000 a year.

She made at least five or six wills, her lawyer, Barry Cohen, said Saturday. But after her death the only will that could be found was 40 years old.

Mrs. Alexander's survivors believe she may have hidden a later one, and the old house, they suspect, holds the secret. It is thought there may be a safe concealed in the thick walls.

The government has leased the building for offices, and the Ministry of Works gave permission to the executors to go over the walls with a detector which once hunted out German mines in the sands of North Africa.

Compliance with common-sense health rules is the best means of keeping young while growing old gracefully. Health experts claim that many of the physical problems of aging can be anticipated. The best way to prevent the degenerative diseases is to catch them before they get a good start. A semi-annual check-up by a good physician will ensure that.

## Oak Bay United Church W.A. Plan Garden Party

Pictured above in the spacious grounds at the home of Hon. R. W. Mayhew and Mrs. Mayhew, 3125 Beach Drive, which will be the setting for a garden party sponsored by Women's Association of Oak Bay United Church, are from the left, Mrs. Mayhew, Mrs. S. Bartlett, program convenor; Mrs. J. A. Skellern, general convenor and president of the Women's Association, and

Mrs. D. Wilkinson, tea convenor. The affair, to be opened by J. B. Clearihue, K.C., will be held Wednesday afternoon from 3 to 5, and will feature many attractive stalls including home cooking convened by Mrs. P. W. Smoothy; garden produce, Mrs. Hansen; ice cream, Mrs. T. Giles; candy, Miss Madeline Foster.

During the afternoon pupils of Miss Wynne Shaw and of Mrs. J.

Duncan, will entertain with several dance selections.

Members of the Athena Club will act as baby sitters during the tea hour. Mrs. J. H. Britton is in charge of tea service.

Games will be managed by T. Claxton and Mrs. J. W. Graham is in charge of tickets. Fish Pond is under the management of Mrs. Mulholland, and J. N. Rowell is in charge of transportation.

## Dorothy Dix

### MOTHER GOD'S GIFT TO MAN

A wife and mother, who says that she has gotten comfort and strength out of reading and re-reading a column I wrote many, many years ago, asks if I will reprint it because, she says, mothers and wives haven't changed. They are still that way. The article is about an old woman, who, when selected to be paid some especial honor in her community, exclaimed: "Who, me? Why, I've never done anything. I've just brought up a houseful of kids to be decent men and women. That's all."

"She never did anything," yet she was a soldier who fought her battles as bravely as any general whose breast is covered with medals and whose deeds live in song and story. Eight times she faced death through torture that has become the synonym for suffering to bring her children into the world. Her life was always a hand-to-hand fight with poverty and ill-health and discouragement, but she never once ran up the white flag.

"She never did anything," yet she was a financier who would have been Secretary of the Treasury if she had gotten her just desserts. Balancing the budget would have been no trick at all compared to spreading her husband's thin pay envelope over the needs of a big family. Yet she did it.

### VERSATILE EXPERT

"She never did anything," yet she was a jack of all trades and good at them all. She was a judge who had to use the wisdom of Solomon in settling the disputes between her children. She was a doctor who knew what to do for minor juvenile ills and who could kiss a bump and make it well. She was a nurse whose hands had healing

in their touch, and who could go without food or sleep or rest while a sick child clung to her who would only be quiet in Mother's arms.

"She never did anything," yet she was the character builder whose work made the kind of men and women who are the glory of a country. She had rock-bottom principles and she founded her children on them. She had high ideals that she always held before her sons' and daughters' eyes, and she bred in them honor and honesty and decency until these qualities became as much a part of her youngsters as their own skins.

"She never did anything," yet she was a day laborer who had no union hours and no 40-hour week. She had no holidays, no vacations, not even a Saturday afternoon off. For there was always so much to do in a poor household where there were no servants and where the babies trod on each other's heels.

"She never did anything," yet she was a heroine because with her own hands she raised her children above herself and opened doors for them which would be forever closed to her. She went shabby that they might have good clothes. Hungry that they might be fed. She stayed put that they might travel.

"She never did anything," yet she cooked in the kitchen the good food on which her children entertained their friends in the parlor. She sat up of nights making the pretty dresses in which her lovely daughters would dance at parties, and washing the shirts so that her boys would be spick and span and efficient looking when they went to work.

"She never did anything." No. Of course not. She was just Mom, and even her children never knew how great she was.

"It's from Birks"

## Germany's Women Reviving Groups Hard Hit By Nazis

BERLIN (Reuter)—Voluntary women's organizations abolished during the Nazi regime are making a comeback in Germany.

But they still have a long way to go before they are as strong as at the end of the First World War, when Germany was covered with a fine network of active women's clubs, from East Prussia to the last small town on the Swiss frontier. Most of these organizations had united to form the Council of German Women which boasted 800,000 members.

In addition to this council, there were many women's trade unions active in feminist problems and two big welfare organizations—one Roman Catholic and one Protestant—which worked together during the First World War.

Still women did not have the vote. Since the suffrage movement had never been strong, the Council of Women held congresses which, in themselves, were a sort of women's parliament. Laws were proposed, worked out and discussed, new social methods were propagated and drives started to interest women in public affairs.

Then, in January, 1919, women for the first time voted in the election for the Weimar National Assembly, in which 10 per cent of the delegates were women.

The years 1920 to 1928 brought a rich harvest of "women's laws," prepared by women. The Youth Welfare Law, passed in 1922, was in its time the most progressive in Europe.

### GOT SOLID SUPPORT

These successes were attained because the women members of parliament were backed by large and influential women's organizations. If the women members had difficulty in bringing their legislative colleagues to see the feminine viewpoint, they called for pressure from their organizations. Women's legislation was helped, too, by a good press and the support of magazines with a wide circulation.

But 1928 was a turning-point and gradually the influence of women declined. There were several reasons for this:

1. Men in Germany began to feel uneasy about the part being played by women in political affairs. They professed fear that the country might become "feminized" or "soft" and they were anxious lest their own political power be curtailed.

2. The world was slowly moving into a period of universal depression. Well-paid jobs became rare and many persons were out of work.

The cry arose in Germany, that, if dismissals were necessary, women should be first to surrender their post to "a man with a family."

For five years the women's organizations fought a losing battle. Then on May 8, 1933, an order was promulgated setting out the only conditions under which the Council of German women could continue as a working body:

Women be allowed to continue as Recognition of Hitler's complete authority over the Council as leader of the National Social-

ist Party; acceptance of the position and tasks which National Socialism considered suitable for women; dismissal of "non-Aryan" members from any office; appointment of National Socialist members to leading offices.

### DISSOLVED COUNCIL

A meeting of officers from all parts of Germany decided, without even discussing the Nazi demands, to dissolve the council.

From 1933 to 1945, German women lost the right to sit in parliament. They lost nearly all leading positions in education and were not allowed to hold positions in the legal profession. They worked in welfare field and in women's institutes.

But members of the old feminist movement continued to meet clandestinely and, in many places, formed camouflaged discussion groups in which the idea of moral resistance was strengthened.

With the end of the Second World War, women's groups began to meet openly again. In Zehlendorf, one of Berlin's suburbs, a group met May 18.

In July, 1945, the group was formally organized and a constitution adopted stating its members were "firmly resolved to work for the moral, social and economic reconstruction of the German people."

The first postwar German women's club was licensed by the British military government to hold meetings in Wilmsdorf, in the British sector of Berlin. The club remained strictly detached from all political parties and was given permission Dec. 19, 1947, by the Allied Command to work in all four sectors of Berlin.

Two other women's organizations have since been given a similar licence—the "Emergency Union, 1947," and the large "Democratic Women's Union."

Many international women's organizations have shown interest and sympathy. The International Council of Women invited one German delegate to its conference in Philadelphia last year, and the federation of business and professional women has sent visitors with whom German club members could discuss their problems.

The National Council of Women of Great Britain and the British Association of University Women have shown special interest.

### Tiny Girl And Doll Travel By Plane

VANCOUVER (CP)—Curly-haired Diane Ford, four-year-old British war orphan, arrived by plane tonight after an unchaperoned flight from London, England.

Only her doll "Doreen" accompanied her on the 6,000-mile trip and the airline stewardesses said she clutched it tightly the entire journey.

Blonde Diane, whose parents were killed during the war, was greeted here by her mother's sister, Mrs. Adella Kingshot, who is to become her step-mother.

## Flying Saucer, Balls Of Fire, Something, Back In News Again

ATLANTA (AP)—The flying saucer or—something—is back again.

Reports from widely-separated sections of the country describe "it" during the week-end as:

1. A wingless craft, spurring flame "like a Buck Rogers rocket ship."

2. An aluminum-covered balloon.

3. An unusually-bright light.

4. A ball of fire.

5. A red and blue flame that burst in mid-air.

6. A flash of cherry-red fire.

7. A meteor.

"It" first was reported by two Eastern Airlines' pilots who said they encountered a wingless mystery plane, spurring fire, near Montgomery, Ala.

Clarence L. McKelvie of Columbus, Ohio, lent credence to the pilots' report by declaring he had seen "a flash of cherry-red fire" while a passenger on the plane.

An Atlanta hunter stalking

game in North Georgia reported "an unusually-bright light—as a lighted room."

"It" was an aluminum-covered balloon to observers at Yakima, Wash., where the police station switchboard was jammed with excited calls and inquiries.

LAST YEAR'S EXPERIENCE

It was this way last year when someone said he had seen a flying saucer whizzing around.

Right away dozens of persons said they had seen the same thing—or something.

The United States Army, as usual, denied any responsibility and simply said in effect, "don't blame us."

As Asbury Park, N.J., board-walk throngs craned their necks today at a "silver cylinder" they reported flying high overhead.

They described it as "way up in the air," and like a blimp "only blunt at both ends."

## \$100,000,000 For Peanuts In African Development

LONDON (CP)—To colonial lands beneath palm and pine, the crisis cry has gone out:

More rice from North Borneo, Sarawak, Nigeria; coal from North Borneo; phosphates from Uganda; peanuts for fat from Africa; more sugar from Mauritius; more hides for leather from East and West Africa.

For, in the words of a government blue paper on the colonies in 1947-48, "the world's needs became the Colonial Empire's opportunity."

Economic pressure moulded the year. British money, in tens of millions of pounds, was available to develop food resources, explore sources of raw materials. British advice was sought to

reduce the drain on the sterling area's dollar resources.

ISSUES WARNING

But with the blue paper went the spoken warning of Lord Treagarne, who is able to influence British investments as chairman of the Colonial Development Corporation:

"I should hesitate to recommend to the board that the corporation should invest large sums in the colonies with a political obsession against the good faith of the United Kingdom."

"Out of the 30 or 40 colonies in which we might operate, there are just two or three where there is an unfounded talk of exploitation by Britain. I am not sure, for example, that the Gold Coast is disturbed. If so it is not possible that the Gold Coast is the victim of stimulated disturbance."

PEANUT DEVELOPMENT

Largest single development is the £25,000,000 (\$100,000,000) peanut development in East Africa, started in 1947. When its crops have been harvested, Lord Treagarne said the Empire "will find it has gained something greater even than crops of much-needed food. It will have gained a spiritual victory, a stimulus and triumph for the British people which will speed them along their uphill road."

These other arrangements were to speed colonial development: Reconstitution of the Colonial Economic and Development Council and reorganization and strengthening of the Colonial Office economic division.

Weather

Synopsis—A weak disturbance has moved south along the B.C. coast during the night bringing rain on the west coast of Vancouver Island this morning. Scattered showers are expected to spread to the southern mainland during the day. Cloudy weather should be quite general over most of the interior with afternoon temperatures a little lower than those of the past few days. Some improvement is expected in the next 48 hours with clearing skies and higher temperatures by Tuesday afternoon.

Vancouver and vicinity, lower Fraser Valley, Georgia Strait—Cloudy with widely scattered showers, clearing during the late afternoon and evening. Cloudy Tuesday morning, clearing during the afternoon. Winds light. Slightly warmer Tuesday. Low tonight and high Tuesday at Vancouver airport 55-72. Abbotsford airport 52-75. Nanaimo 50-72.

Victoria and vicinity—Cloudy with widely scattered showers during the forenoon, clearing during the afternoon. Variable cloudiness tonight and Tuesday morning, becoming clear Tuesday afternoon. Winds light southeasterly this forenoon, increasing to southwest 15 during the late afternoon. Little change in temperature. Low tonight and high Tuesday at Victoria 51-66.

## Ford And U.A.W. Sign

John Bugas (left), Ford industrial relations director, and Walter Reuther (right), United Automobile Workers' Union president, hold new contract which avoided a Ford strike. The agreement was reached after an all-night session in Detroit. It calls for 13 cents hourly wage increase and 3½ cents social security benefits. Reuther's arm still shows signs of the recent attempt on his life.

Man in centre is unidentified.

## Britain Doubles Payments For U.S. Imports With Own Exports

By CANADIAN PRESS

Britain now is paying for one-third of her United States imports with exports, as against only one-sixth which she was paying before the war.

This encouraging statement by Harold Wilson, President of the Board of Trade, also points out how much ground she has to recover.

The fact is, she was running behind even before the war, but her heavy investments abroad gave her a cushion on which she could ride for a while.

MAKING UP LOSSES

The war used up the cushion and so now she has not only to make up for the direct losses of war, but to correct a situation which would have been difficult even without it.

For the first time in a year there is cheer and hope in the British official reports. Just a year ago she was going through

the run on her currency which followed the re-establishment of the convertibility of sterling, which forced her into an August financial crisis and abandonment of reconvertibility. Her reports have been mostly grim since.

Now, however, she is able to say that exports are running at 138 per cent of the 1938 average and pointing towards the 150 rate set for the year-end.

She is still a long way from reaching a trade balance, and her situation would be almost unbearably critical without the European Recovery Program. But Sir Stafford Cripps is hopeful that by the time E.R.P. runs out, presumably in 1952, she will be in a position to sustain herself.

At the same time that she is making this effort to recapture her place in the world's trade and general economy, she is putting into effect a far-reaching social security scheme.

## English Goods Take Place Of Canadian, U.S. In Australia

SYDNEY, Australia (CP)—English manufacturers are finding a ready market in Australia for goods and machinery previously supplied by Canada and the United States.

Automobiles, cigarettes, farm machinery, tools—once almost exclusively bought from the dollar countries—now are being supplied by Britain in such quantities that it may be difficult for Canada and the United States to recapture their markets when the dollar position returns to normal.

EXPORTS FALL

A sharp fall in Australia's exports to Canada and the United States is responsible for the adverse trade balance with those countries resulting in an inevitable trend to buy on the British, or sterling, markets.

Australia and New Zealand have tightened up their economic links and they now form a more intimate economic unit which they believe will develop supply resources of both countries and save overseas exchange and dollars.

OVER-ALL PROFIT

Although Australia's trade balance with the dollar countries is adverse she is not embarrassed with an overall trade deficit. On world markets Australian trade balance for the past financial year shows a profit of around \$70,000,000.

This balance can be augmented if manufacturers and exporters can recapture the valuable East Indies markets lost to Australia when waterside workers placed a "black" ban on all Dutch ships after fighting between the Dutch and the Indonesians began in 1945. The ban was lifted last May 26, but it cost the country more than \$50,000,000 in lost trade and killed good will among East Indian importers.

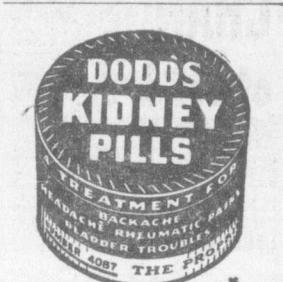

While the ban operated, the United States established firm markets for her products in Indonesia. These markets could have been shared by Australia, according to reports from the area.

"MONAMEL did a grand job on my kitchen and bathroom walls! It's durable and so easy to clean!"

"Oh, Good! Then it's MONAMEL for me, too!"

#### FREE OFFER for Deafened Persons

For people who are troubled by hard-of-hearing, this may be the means for starting a new, full life—with all the enjoyment of sermons, music, friendly companionship. It is a fascinating brochure called "Full-tone Hearing" and is now available without charge. Deafened persons acclaim it as a practical guide with advice and encouragement of great value. If you would like a free copy, send your name and address on a penny postcard and ask for "Full-tone Hearing." Write BELTONE, Dept. 18, 1450 W. 19th St., Chicago 8, Ill. Also show this important news to a friend who may be hard-of-hearing.

#### CHANGE of LIFE?

Are you going through the functional "middle age" period peculiar to women (35 to 52 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound also has what Doctors call a stomachic (tonic effect).

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

**Vitalis**  
gives your hair a rich, natural "he-man" look.

Vitalize your hair with **Vitalis** and the 60-second workout\*

**VITALIS**—Prevents dryness, roots loose dandruff, helps condition hair and scalp.

**VITALIS**—Contains no mineral oils, no animal fat—only fine vegetable oil.

**VITALIS**—is non-greasy, non-sticky. Never leaves blobs of grease or whitish film.

\*50 seconds to massage VITALIS into your scalp—10 seconds to comb. That's all—but wait until you see the healthy, natural VITALIS luster—that million dollar look.

Product of Bristol-Myers  
Made in Canada

#### Customs Men Use Mirrors In Waging War On Dope Rings

NEW YORK (AP)—Day and night, squads of armed men carrying flashlights and pocket mirrors board ships entering New York harbor.

The alert, eagle-eyed men of the U.S. customs enforcement division don't carry the glassware from milady's handbag to use in combing their hair or prettifying their features. Pocket mirrors are standard equipment in the grim, unrelenting war on narcotic smuggling.

Placed strategically, a mirror shows up what may be ingeniously hidden behind a lavatory washbowl, a seaman's bunk, or in the machinery of the ship's intricate engine room.

From stem to stern, expert searchers go over a vessel like a fine tooth comb.

Vigilance of these customs officers has paid off handsomely. In the last year they've confiscated contraband drugs valued at several million dollars in the illicit market, said Harry M. Durning, U.S. customs collector for the New York port.

New York, in law enforcement parlance, is a "hot" port—about the hottest in the world.

#### HISTORY REPEATS

International smugglers have renewed efforts to penetrate port surveillance with narcotics for American dope peddling rings. History, veteran port officials say, is repeating itself. A post-war resurgence of narcotic smuggling is comparable to one after the First World War.

Collector Durning attributes the alarming increase to a breakdown of prewar safeguards abroad, world-wide unrest and unsettled economic conditions and the age-old desire for quick, high profits.

In tightening their vigil against smuggling, customs officers pay particular attention to all ships coming from French and Mediterranean ports. That's where, they say, most shipments of illicit drugs originate.

Ships from Britain and Ireland, the officers say, seldom figure in drug smuggling. Always suspect, however, said Herman Lipski, chief of the U.S. customs enforcement division, are vessels coming from Naples, Genoa, Marseille, LeHavre and Antwerp.

Lipski's men recently scored their biggest catch of the year when they discovered narcotics valued at \$1,000,000 secreted aboard a ship from LeHavre.

#### HIDING PLACES

One bundle of drugs was found in the ship's galley at the bottom of a full barrel of flour. Another batch, encased in a waterproof bag, reposed in a soup tureen full of water. Other packages were discovered inside the lining of the ship's oven and in a box of sea biscuits.

Another recent haul came when shore patrol officers under Durning raided the basement of a dingy waterfront tenement. They found 36 ounces of narcotics and complete equipment for testing, diluting and preparing drugs for illicit sale to addicts.

In a drainpipe in the basement they found \$18,000 in cash, and a pistol. From a man caught fleeing the basement they confiscated four more ounces of forbidden drugs. Total value of the catch was placed at \$200,000.

#### Farmers In England Opposing Scheme For Flood Valley

ASHFORD HILL, Hampshire, Eng. (Reuter)—The country-folk of this rich, green corner of England, which they are already calling "The Doomed Valley," are preparing for a relentless battle against the authorities in London who threaten to drown their farms an homes.

One woman here has threatened to emulate the women who fought for voting rights at the beginning of the century and chain herself to the railings of the Parliament Buildings if Metropolitan Water Board proposals to flood the Enborne Valley seem likely to succeed.

The scheme, yet to be formally adopted by the board after

boring tests, is to flood the nine square miles of the fertile valley with surplus water from the river Thames during flush winter periods. The reservoir thus created would provide a reserve of about 55,000,000 gallons for periods of shortage.

The minister of agriculture will ultimately have to make a difficult decision between, on one hand, the urgent need of London's teeming population for more water, and on the other the loss of the contribution this area makes to Britain's low food supplies.

Farmers in Hampshire and Berkshire, the counties which the valley divides, are raising a fighting fund to save their farms.

Already committees have been formed to protest and many lawyers have been recruited to throw their weight into the battle.

It is estimated that under the scheme, 82 of the 106 farms in the valley will be totally

#### Notes Signed 'Al S.' Work Of Prankster

MIAMI, Fla. (AP)—Another clue to the disappearance of Jockey Al Snider, formerly of Calgary, was declared false Saturday.

The U.S. Coast Guard studied five notes in a bottle signed "Al S." and said they probably were the work of a prankster.

The messages asked for help, adding "One dead, 71 M. West Pine Key. Report."

Coast Guardsmen said the position was in the Dry Tortugas, an island group thoroughly searched for Snider and two companions who disappeared March 5.

Others missing with him were C. H. Trotter, Miami horse trainer, and Don Fraser, Toronto manufacturer.

submerged and 24 others partly flooded or rendered sterile.

#### Quake Recorded

BERKELEY, Calif. (AP)—An earthquake of moderate intensity, about 6,000 miles distant, was recorded on the University of California seismograph at 4:34.35 a.m. P.S.T., Friday. Seismologist Perry Byerly said the distance would indicate the tremor could have been in southern Chile or the Solomon Islands.

THE CLUB RACER

THE CLUB ROADSTER

Every once in a while a Canadian manufacturer creates something new and different—something better—superb in fact.

This time, it is C.C.M. who have designed and manufactured two completely new C.C.M. bicycles which we present, with considerable pride, to Canadian cyclists.

These smart new C.C.M.'s are known as the C.C.M. Club Racer and the C.C.M. Club Roadster.

They possess every feature of design and quality that either you or we could possibly desire in a bicycle. Some of these features are:

The front fork and head, the three-piece sprocket hanger, the locking cones on the hubs are all of new

design and the C.C.M. Hercules Coaster Brake, "The brake that makes cycling safe", make for smoother, easier and more enjoyable pedalling and riding.

Then there are the featherweight steel guards with raised centres, the chrome plated Endrick rims, C.C.M.'s exclusive low-temperature frame brazing and the beautiful steel blue lustrous pearlescent enamel on the club racer and C.C.M.'s famous rich maroon on the roadster together with Dunlop "Sports" light-weight tires all combine to create two truly beautiful, new, 1949 C.C.M. bicycles.

These C.C.M.'s will be at your C.C.M. dealers' soon and it will delight you just to look at them—they're wonderful!

Subject to prior sale or withdrawal, War Assets Corporation offers for sale the following:

## Ex-Department of Transport Scow

**Dimensions:** Length 151.7 ft., Beam 42.5 ft., Depth 10.7 ft. Deck House length 132 ft., Width 38 ft.

**Construction:** Frames 4x6 ft. Floors 4x12 ft. Bilge Stroke 8x12 ft. Fore and Aft Bulkheads—four (4) in number. Thwartship Bulkheads—five (5) in number.

**Machinery:** Two 72x120-inch Vertical Boilers. Two 4-drum heavy duty winches. Cylinders 12x14 inches. (Some fittings missing.)

**Fuel Capacity:** Approximately 5,500 gals.

**Location:** Wing Dam, New Westminster, B.C.

Offers to purchase invited and to be considered, must be received at the address below, on or before

AUGUST 5th, 1948

For further information and arrangements to inspect Address all enquiries to:

Branch Sales Manager, War Assets Corporation,  
P.O. Box 429, Vancouver, B.C.

## TERMS AND CONDITIONS

Offers to purchase this Scow are invited subject to the following conditions:

- The Corporation shall have the right to accept or to reject any or all offers in whole or in part.
- If any offer is accepted, sale will be on an "as-is-where-is" basis without warranty of any kind (except as to the Crown's title) and will be subject to the other usual sales conditions of the Corporation.
- On acceptance of offer, purchase price will be payable in full.
- Purchaser or purchasers will be required to take delivery of ship sold, at their own expense, within the time limit set by the Corporation.

## WAR ASSETS CORPORATION

**EXCHANGE TEACHERS REACH CANADA**—Over 30 exchange schoolteachers arrived in Montreal aboard the Canadian Pacific liner Empress of Canada, including three for Victoria. Those in the above picture bound for western points are: Left, front row, Dilys Gittins, from Wales to Edmonton; Elsie Weaver, from London to Victoria; Eileen Kelly, from London to Vancouver; Irene Taylor, from London to Edmonton; Elizabeth Walker, from Glasgow to Vancouver; Beryl Briggs, from Derbyshire to Creston, B.C.; Agnes Hered, from Paisley to Kimberley, B.C. Back row: Connie Thomas, from Hitchin, Herts, to Victoria; Doris Lindon, from Ilford, Essex, to Victoria; Mima Norris, from London to Vancouver; Edna White, from Birmingham to Vancouver; Julia Taylor, from Scarborough to Vernon, B.C., and Christina Simpson, from Edinburgh to Winnipeg.

## Ottawa Watches Arthritis Probe

The National Health and Welfare Department at Ottawa is reported to be watching with interest the outcome of the B.C. government's investigation of a Port Alberni man's claim that he has a cure for arthritis.

The federal authorities will not investigate the reports of L. Green of the up-island city but if the provincial inquiry brings promising results, financial assistance from Ottawa is expected for research and development work.

## Shaw Has 92nd Birthday But Stages No Celebration

AYOT ST. LAWRENCE, Hertfordshire, Eng. (CP)—George Bernard Shaw was 92 today, but nobody in his household dared mention the fact.

As far as Britain's leading sage is concerned, birthdays are not to be celebrated. He hates them. No celebration had been prepared for the day. Even the playwright's closest friends shrank from visiting him.

There was one, however, who took a chance with Shaw. She is his housekeeper, Mrs. Alice Loden, who tempted him with one of the four cakes sent by admirers. It was iced and had the letters G. B. S. inscribed on it.

## RISES AT 7 A.M.

Shaw's day was no different from his usual routine.

Up at 7 a.m.; breakfast 8-10 a.m., eating extremely slowly and reading all the while; writing until lunch at 1.15 p.m.; then more reading and writing until dinner-time. He never has tea at a meal. After dinner comes more reading, perhaps listening to the radio and writing for a couple more hours before going to bed about midnight.

Shaw's general health is said to be better than it was a year ago. He has fully recovered from a recent chill caught while strolling in the rain.

Shaw gives credit for his good health to his vegetarian diet, the fact he is a teetotaler and to his extremely careful rules for living.

His sight and hearing have failed a bit, but he still can read without glasses and hear ordinary conversations without strain. He has confided that his sense of taste is not as sharp as it could be and that his memory fails him now and again. The years have not affected his sharp wit.

He describes his recreation now as "being ninety," and adds that he intends to enjoy it for a long while. In the last year he has completed a play, "Buoyant Billions," subtitled by G.B.S. "A Comedy of No Manners." It is to have its premier in Zurich this fall. He has started another comedy and has written a postscript to his celebrated "Fabian Essays."

## SAYS LEADERSHIP NEEDED

Concerning the state of the world, his friends say, Shaw "sees a kind of inevitability about things."

"He feels," they say, "that for-

GEORGE BERNARD SHAW  
Starts writing another play...

tain ministers and others in similar positions of responsibility simply are not up to the situation. Until nations get the right kind of leadership he believes we shall go on having trouble."

But, in his own words, "No European country can afford a war, least of all Russia."

## Uncle Ray

CANADIAN ROCKIES CONTAIN LARGE NUMBERS OF GLACIERS

Three countries own the Rocky mountains. These are Canada, the United States and Mexico.

Some (but not all) of the mountains of Mexico are in the Rockies. In general the Mexican Rockies are low, but one peak—Orizaba—is three and a half miles above sea level. Orizaba is close to the Gulf of Mexico.

In the United States the Rockies are at their widest. Ridges and peaks of this mountain system exist in Colorado, Utah, New Mexico and Texas, also in Idaho, Wyoming and Montana.

The American Rockies give us beautiful scenery. Some of the peaks—including Long's Peak and Pike's Peak in Colorado—are more than 14,000 feet above sea level.

There are glaciers in the American Rockies. Some of these are in Glacier National park, Montana.

In Canada these mountains have a great number of glaciers, including those in the Rocky Mountains park. Huge glaciers exist in Alaska and the Klondike area of northern Canada, near the border of Alaska.

The Canadian Rockies are tall, and are noted for their beauty. One peak, Mount Robson, is more than two and a half miles high.

The path of the Canadian Rockies leads through British Columbia and Alberta into the Yukon area. In British Columbia we find the famous Yoho valley, part of which has been turned into a national park. The sights in this valley include Twin Falls, with a drop of about 400 feet. The Takakkan Falls, also in this valley, have a drop of 1,243 feet, and are about seven and a half times as high as Niagara Falls. The volume of water is small, however, compared to that of Niagara.

Canada also has the waterfalls known as the Seven Sisters. Falling side by side are seven narrow streams of water. Legend says that this water is made up of the tears of seven sisters. Some visitors fancy that a mournful sound is made by the splashing of the water on the rocks below.

## Marion's Plurality In Athabasca 245

REGINA (CP)—Complete returns from Saskatchewan's far northern constituency of Athabasca show L. M. Marion was returned by a substantial majority in Thursday's deferred election.

Marion held the Athabasca seat as a Liberal in the last Legisla-

ture, but ran as an independent this time. Saturday, Walter Tucker, provincial Liberal leader, said he did not know of any reason why Marion should not join the Liberal opposition. The latter made no comment.

Marion polled 602 votes to 357 for Axel Olson, C.C.F., and 197 for David Lechasseur, Independent.

Final standing for the 52-seat Legislature now shows 31 C.C.F. members, 19 Liberals, one Lib-

## Circus Monkey Back In Cage

VANCOUVER (CP)—Minnie the circus monkey, who had roamed Vancouver streets the past three days knocking off policemen's hats and pelting elderly women with apples, is

eral - Progressive Conservative and one independent.

back in her carnival cage.

A posse of policemen, pound-keepers, three newspaper men, three photographers and several interested citizens surrounded Minnie on Sunday. It took them an hour to dislodge her from the rafters of a basement in an east end home.

How she got there, nobody knows. But now everybody is happy that she's back, including Mike the monkey, her circus spouse.

## RELIEF FROM HAY FEVER MISERY

LANTIGEN "E" contains extracts of pollens of grasses, weeds and spores of Canadian origin to which Hay Fever sufferers are usually allergic. Sufferers from Hay Fever are well advised to start taking Lantigen "E" about a month before their usual attack begins. The severity of the attack may be greatly reduced, if not eliminated entirely, when LANTIGEN "E" is taken as directed. Since bacterial infection of the upper respiratory tract frequently occurs with Hay Fever, LANTIGEN "E" combines the antigens of these organisms, a vaccine, with the pollens of grasses, weeds and spores.

You too may enjoy the relief found by thousands! Get a bottle of LANTIGEN "E"—and avoid the bother and discomfort of hypodermic injections.

GET A BOTTLE OF LANTIGEN "E" TODAY

LANTIGEN "E"

LANTIGEN LABORATORIES LIMITED  
12 Richmond Street East, Toronto 1

One bottle of Lantigen "E" contains 6 weeks treatment at a cost of 15¢ per day.

6.00

220 Southside Drive,  
Leaside, Ontario  
September 9th, 1947

Dear Sirs:

For a little better than the past year, I have been using Lantigen "E" and I feel that I have been able to avoid the usual hay fever attacks. I have been able to enjoy the summer months and I have been able to enjoy the use of Lantigen "E".

During that time, she has used as many as 10 bottles, only three of which are to be congratulated on your product.

Yours truly,  
L. M. Marion

## Lesnevich 1-3 Choice To Repeat Over Mills

LONDON (AP)—A sellout crowd of 46,000 fans will watch Gus Lesnevich make his bid for a shot at the world heavyweight boxing title when he meets rugged Freddie Mills tonight at White City Stadium.

The return scrap between the two 175-pounders has created great interest, being considered perhaps the most important fight held in Britain in modern times.

If Lesnevich, recognized world light-heavy champion, can repeat the knockout victory he scored over Mills two years ago, he is considered a cinch to slug it out either with Joe Louis or Jersey Joe Walcott in September, and become fistiana's No. 1 "Gold Rush" for the coveted heavy-weight crown.

Nat Fleischer of Ring Magazine, who flew across to witness the fight, remains confident that Louis will defend his heavy crown "just once more" if Lesnevich is the challenger.

### DOWN FIVE TIMES

The last time Gus fought Mills, in May, 1946, he knocked the Briton down five times in the second round and had him on the floor four more times in the 10th before the referee stopped it.

It is estimated that Gus' share of the purse will top \$100,000, of which he will be able to bring a comfortable sum back across the Atlantic even after British tax authorities have taken their bite.

The odds-makers set Lesnevich up as a 1-to-3 favorite several days ago.

## Great Stymie Retired After Suffering Injury

NEW YORK (AP)—One of the great "iron horses" in turf history came to the end of the racing trail today. Stymie will thrill the crowds no more with his brilliant, spine-tingling stretch rushes.

The gallant old "Pride of Brooklyn" suffered a fractured sesamoid in his right forefoot in the Monmouth Park handicap Saturday, and less than 24 hours later trainer Hirsch Jacobs said the seven-year-old world's money-winning champion would be retired permanently.

An expectant millionaire for the last four months, the powerful chestnut handicap star ran fourth to Bayard Sharp's Tide Rips in the 1 1/4 miles Monmouth feature.

Jockey Bobby Permae said "something was definitely wrong" after the race, and Jacobs announced a few minutes later that Stymie had pulled up lame. Yesterday X-rays disclosed the bone injury.

He collected only \$1,500 fourth money—peanuts for him—putting his record all-time earnings at \$911,335. This was just \$88,665 under the mark which would have made him the first millionaire in turf history.

## Clouting Graham Beaten By Adams; Out For 10 Days

Jack Graham's drive toward a ne Coast League home run record has been struck a severe blow.

The San Diego slugger was beaten by a Red Adams' fast ball yesterday after clouting his 46th round tripper of the season against Los Angeles. His condition was reported good last night.

But, said Dr. D. A. Schmidt, Graham will be out of the line-up at least 10 days. The big clouter complained of impaired vision which—if it continues—certainly won't help his chances of overhauling Tony Lazzeri's P.C.L. mark of 60 homers.

The beaming was witnessed by Graham's mother, Mrs. Joseph

Portland	52 65 .444
Sacramento	43 73 .371

Graham of Long Beach. She dashed out on the field but had to be assisted herself because of her distraught condition.

San Diego won the second game, 4 to 0, behind Xavier Rescigno. The Angels, despite Graham's homer, took the opener, 7 to 6, in 10 innings.

Oakland maintained its half-game lead over San Francisco as all other Sabbath doubleheaders were divided.

Charley Gassaway pitched a four-hit shutout for the Oaks' 5 to 0 win, and Duane Pilette of Portland hurled a two-hit seven-inning 8 to 0 job for the Beavers.

Herman Besse twirled Seattle to a 3 to 2 win over Hollywood after the Stars slammed out a 10 to 7 decision in the opener.

## Regains European Title

Cyrille Delannott, left, bows under onslaught of Marcel Cerdan in Brussels. The elderly Cerdan regained his European middleweight title in a 15-round decision, is now eager for a shot at Tony Zale's world crown.

## Hogan Breaks Course Mark In Golf Victory

READING, Pa. (AP)—Little Ben Hogan, the magnificent pressure golfer from Hershey, Pa., won the \$15,000 Reading open Sunday with an eight-under-par 31-33—64 and a 72-hole total of 269. He smashed the Berkshire Country Club course record by a stroke.

Fred Haas Jr., 32-year-old New Orleans pro, who shared or held the lead through the first three rounds, finished second with a 270.

Clayton Heafner of Charlotte, N.C., wound up third at 271. Haas scored a two-under-par 70 in the final round while Heafner shot a final 69.

Jimmy Demaret, colorful Ojai, Calif., pro and South African Bobby Locke deadlocked for

fourth place at 272. Demaret, playing in hard luck throughout the final round, nevertheless turned in a fine 67, and Locke netted a four-under-par 68.

STRAHANAN 19TH  
Frank Stranahan of Toledo, O., Canadian and British amateur champion, finished with 72 for a total of 281, in 19th place.

Hogan took down \$2,600 first prize money and regained the leading money winning honors from Lloyd Mangrum, Niles, Ill., pro.

Hogan's winning upped his 1948 take to \$22,797. Bill Ezinicki of Toronto, who scored 148 for the first 36 holes, failed to qualify for the final two rounds.

Mrs. R. J. Melville 21-20. The women members are now engaged in doubles competition for the Dewar Cup.

OTTAWA (CP)—Lorne Main, Vancouver 18-year-old, was a triple titleholder today with the Ontario senior and junior men's singles in his pocket and a share in the junior men's doubles.

The youngster, who handles both backhand and forehand drives with two hands, swung to victory in the senior singles Saturday with a 6-3, 6-1, 2-6, 6-3 win over Gaetan Valois of Ottawa. He upset Ottawa's Don McDiarmid, who had been favored to win the tournament, in a semifinal match Friday.

He and Don Platt of Toronto won a hard-fought victory over Raymond Page of Montreal and Hamilton Quinn of Ottawa in the concluding match of the tournament at Rideau Lawn Tennis Club.

Most of the finalists then moved on to Toronto, where the Canadian championships open today.

In another match Saturday, Pat Macken of Montreal won the senior women's singles title with a straight-set, 7-5, 6-2 defeat of Ottawa's Sonia Swift.

Mrs. Ruby Fisher of Toronto was a double winner. She and Mrs. Anne Freedhoff defeated Mrs. Louise Brown and Dorothy Hurst 6-4, 6-8, 7-5 in an all-Toronto senior women's doubles final, and later with Joe Hopper of Toronto won the mixed doubles, defeating Vera Lewis and Bobby Duford of Ottawa.

Don White and Rice led the Nanaimo scoring each with three goals. Bob Long fired two of the Tillamums' counters.

Tomorrow night at Stevenson Park the second-place Jokers tangle with the J.B.A.A., starting at 6:30.

Forced to take the floor with only 10 men the Tillamums weakened badly after holding Nanaimo to 2 to 2 score in the first quarter. Nanaimo led 7 to 3 at halftime and in the last two quarters outscored the Victoria club 8 to 1.

Don White and Rice led the Nanaimo scoring each with three goals. Bob Long fired two of the Tillamums' counters.

Rifle Shooting  
Hight shot in the weekly shoot at Heals Range Saturday was Jake Young, representing the 5th Regiment. It was the second straight week that Young has posted the top score. Young had a score of 50-46-96.

Complete scores follow:  
5th REGIMENT  
Jake Young, 50-46-96; V. G. Valieu, 48-47-95; Lieut. Arthur Sherwin, 47-47-94; Maj. Joe Gibault, 43-48-91; P. Sgt. R. Sullivan, 44-47-91; Sgt. Alec Brayshaw, 46-45-91; Sgt. F. V. Richardson, 44-46-90; Lt. Col. J. E. Hutchinson, 44-43-87; Sgt. Mir. G. S. Carr, 43-44-87; Lt. Ldr. P. E. Richardson, 43-43-86; Rihal Young, 40-43-85; Fred Elliott, 34-44-78; Dr. W. W. Bell, 40-31-71.

CANADIAN SCOTTISH  
Edman, Frank Drysdale, 47-47-94; Jack Regan, 47-46-93; Sgt. F. T. Allen, 47-46-93; Major A. M. T. Spittal, 46-47-93; Albert Ahe, 45-47-92; S. Sgt. E. O. Roberts, 46-45-91; Cpl. H. Gray, 46-45-91; Sgt. George Knight, 43-45-87; R. B. Fox, 41-46-87; S. Ldr. B. W. Beaumont, 43-43-86; Pte. W. B. White, 44-40-84; C. Couste, 38-43-82; Cpl. H. J. Poltorovich, 41-39-80; Cpt. S. V. Walters, 37-41-78; George McIlvren, 41-38-77; C. W. Sutton, 41-35-76.

WINS BOWLING CUP  
In the final of the MacDonald Cup singles competition at the Victoria Lawn Bowling Club, Mrs. T. A. Simmons defeated

Western Canada Ice Loop Remains Five-Club Circuit  
CALGARY (CP)—The Western Canada Senior Hockey League will remain a five-team circuit during 1948-49, the schedule opening at Edmonton Oct. 11, league directors announced Sunday night.

D. P. McDonald of Calgary was re-elected president and secretary-treasurer, Dr. W. G. Hardy of Edmonton was returned as league governor and C. B. Whitney, Regina, as vice-president.

Owing to delay in making application, no consideration was given to a possible Winnipeg entry. Johnny Peterson, Winnipeg rink manager who attended as an observer, was told however, that if an application were made it would be considered for the 1949-50 season.

The league now comprises Edmonton, Lethbridge, Calgary, Saskatoon and Regina.

Longden Rides 105 Winners At Hollywood  
INGLEWOOD, Calif. (AP)—The gates of Hollywood Park are closed today after a 50-day meeting sparked by the sure-footed riding of Johnny Longden.

The 1947 jockey champion, a former resident of Tabor, Alta., bagged three more winners on closing day, Saturday, to bring his total for the meet to 105, believed to be a new United States turf record.

But not all of Longden's skill and On Trust's big racing heart could withstand the driving finish of Drumbeat in the \$50,000 Sunset, the wind-up feature handicap. Drumbeat, only three-year-old in the field and carrying a low weight of 100 pounds, overhauled On Trust and Shannon II, Gold Cup winner, in the stretch and raced to a three-length victory in 2:41.

A thousand fans watched a scoreless first half, followed within eight minutes of the second by Edmonton's Dave Gillings' goal—the Albertans' only point-maker—and St. Andrews' equalizer another eight minutes later by Bill Arthur.

The winning goal came when Bill Ness, Edmonton goalie, attempting to clear a scramble, handled the ball outside the 18-yard line. It was on the resultant free kick that the Vancouver

A thousand fans watched a scoreless first half, followed within eight minutes of the second by Edmonton's Dave Gillings' goal—the Albertans' only point-maker—and St. Andrews' equalizer another eight minutes later by Bill Arthur.

The winning goal came when Bill Ness, Edmonton goalie, attempting to clear a scramble, handled the ball outside the 18-yard line. It was on the resultant free kick that the Vancouver

right half drove a scorcher that didn't give Ness a chance. Legion took the early initiative in the second, Bill Thomas forcing a corner kick right off, then Bobby Graham setting up play for Gillings' goal by sending a pass through the middle.

EDMONTON (CP)—A free kick by Wes Henderson just three minutes before time Saturday gave Vancouver St. Andrews a 2 to 1 victory over Edmonton Legion in the opener of the western Canada soccer semifinals. Second game in the best-of-three series will be played tonight.

## Olds Again Cracks Track Record; Wins Main Event

It was Don Olds night at the Langford Race Track Saturday night, the Seattle driver once again cracking the track record in the time trials and then coming from last place in the reverse main event to nose out Victoria's Digger Caldwell in a thrilling finish.

One near serious accident almost marred the meet, however, on the 23rd lap of the main event when popular Jerry Vantreight turned over near the southwest corner and skidded into the fence. Vantreight appeared to bounce off the front wheel of Spaulding's car when cutting in at the south turn. His car turned completely over and bounced along the track upside down before hitting the wall.

Following the accident Vantreight was taken to St. Joseph's Hospital for examination but was later released.

When the accident occurred Caldwell was in the lead with about a quarter-track margin over Olds who had come up from the rear position. Caldwell started in fifth spot and moved into the lead at the 12th lap.

Results of time trials follow: Caldwell 18.42, Stanley 18.42, Brown 18.42, Kostenuk 18.43, Vantreight 18.62, Haslam 18.55, Bruce 18.05, Simpson 19.50, Eng 18.56, Fanning 18.30, Green 18.55, J. Spaulding 19.10, Ernie Spaulding 17.82, Olds 17.64.

Olds won the helmet dash easily, leading all the way and being followed by Ernie Spaulding and Verne Bruce. He copped the first heat race with Spaulding and Bruce again second and third. In the Australian pursuit race Olds, starting last, wound up second behind Brownie Brown who led all the way.

Bruce won the second heat, and Digger Caldwell the fourth. Best time for the heat races was made by Olds in 2:23.68.

## Race Car Driver Back In Hospital

Jerry Vantreight, local auto race driver injured in a smash-up at Langford Speedway Saturday night, was readmitted to hospital Sunday.

Vantreight was released after an examination Saturday night, but returned next day.

He is reported to be resting comfortably and his condition is said to be satisfactory. Injuries are not known.

## 2 Slightly Hurt In Saanich Accident

Two persons were slightly injured in a two-car collision Saturday evening in Saanich at Rock and Kathleen Streets, Constable Robert Coleman reported.

Cars were driven by Gerald Emerson, 1207 Duke Street, and E. Johnson, 1205 Duke Street. Baby Thomas D. Emerson, aged 10 months, suffered a slight cut on the mouth, while Mrs. Johnson sustained minor bruises.

## Zeballos, Boom Town Of 10 Years Ago, Still Has Future

Talk of closing down gold mines apparently doesn't bother the people of Zeballos. The busy settlement on the west coast of Vancouver Island which mushroomed up in 1938 when quantities of the precious metal were found at what is now the Privateer Mine no longer considers itself dependent upon miners' trade for existence.

Ten years ago it was a boom town. Hotels, stores and docks sprang up and hundreds of people moved in.

Today, with the price of gold fixed by the federal government while costs of mining it continue to rise, mines are closing down.

Although no official announcement has been made, Zeballos residents take it for granted that the Privateer Mine will be closed before many months have elapsed.

Reason for such a statement is that the logging and fishing industries are becoming increasingly important in the area.

Fishermen from all over the northern coast of the island put

into Zeballos for supplies. Being a larger town than most in the area, Zeballos offers more entertainment for them.

And the fact that there is a beer parlor and the only liquor store on the coast north of Port Alberni probably does much to attract them.

The Manning Lumber Company is currently building a mill on a dock right in the town, a definite indication that lumbering is to be carried out on a large scale.

Across the inlet, about three-quarters of a mile away, the steep slope is being logged. A large A-frame at the water's edge is strung with cables for leading in the giant timbers.

But the people in frontier-like Zeballos have still bigger ideas about their town. With air travel becoming more commonplace, merchants in Zeballos talk enthusiastically of a sizable tourist trade.

"People who have been here once always want to come back," they say. "The fishing is good, there is accommodation and there are small boats to take travelers even farther afield if they so desire. And they all seem to have a certain pioneer spirit which manifests itself in these parts—they feel they are really away from the troubles of civilization."

## Hot And Cold Running Weather Not Unusual

Isn't it changeable? The weather that is...

You go out and bluster at the beach one day—you freeze the next. You don't know whether to wear a topcoat and carry an umbrella when you come to work in the morning, or a straw hat and tropical suit... if you have a tropical suit.

On all sides you hear: "I have never seen such a summer as this. It seems as if we jumped from January to November, the bleakest ends of the calendar with no stopovers allowed."

You plan a picnic or a wiener roast. Though it's lovely, the day you plan it, overcast skies, cool winds and possibly rain, make the beach party a study in discomfort. Residents of five to 50 years' standing are complaining bitterly.

The seer to whom we turn for guidance in these things—the weatherman atop Gonzales Heights—has handed down his report for the first 25 days of July and there is nothing extraordinary or unusual but the weather, says he. As a matter of fact everything is normal.

It may be hard to believe. But they say figures don't lie, and here they are: There have been 225 hours of sunshine in Victoria this month to date, which is only six hours below normal; the mean temperature for the same period has been 59 degrees or just one degree below normal; precipitation has been .69 or .24 above normal.

## Work Started On 200 Fraser Valley Homes

Reconstruction has been started on 200 homes damaged in the Fraser Valley floods, and appraisals have been completed on 750 washed-out dwellings which is 38 per cent of the total number of surveys facing the Fraser Valley Rehabilitation Authority.

This was reported today in a progress report received by Premier Byron Johnson from the authority.

The policy of home-occupiers doing their own work in rebuilding is said to be meeting with favorable reception. There are cases when this policy cannot be followed and in them either contractors or day laborers are authorized.

No shortage of materials has been felt yet, the authority reports. "But," it is pointed out, "we are only on the fringe of the demand."

Cost of rebuilding so far varies between \$500 and \$300 per house. Rectification is being undertaken in most areas with the Matsqui, Hatzic, Harrison Mills and Hammersley Prairie areas the least progressive because of local conditions.

Thousands Attend Two Park Concerts

Over 2,000 people were present at each performance of a double musical presentation at the new James O. Cameron Memorial Pavilion in Beacon Hill Park Sunday.

At the afternoon concert, the Victoria Parks Board Band, under the leadership of H. J. Rigby, presented a program of selected marches. In the evening, the B.C. Electric concert was presented under Conductor James M. Miller.

Favorable comment was forthcoming from both the audience and the musicians regarding the new pavilion. The location is slightly better and the acoustics are improved, say the listeners, while musicians find the new structure a great improvement over the old bandstand.

"It is more comfortable in every way," said one local musician, "we don't get a biting wind to bother us like we did before. It is more enjoyable all round."

**ADMIRAL GRANT OPENS NAVY SHOW**—Thrilling displays and aerobatics and formation flying and bombing attacks on a dummy target featured the full-dress naval air show held at the Dartmouth, N.S., Air Station July 21. More than 10,000 persons witnessed the display, which was formally opened by Vice-Admiral H. T. W. Grant, C.B.E., D.S.O., R.C.N., Chief of Naval Staff (above). At Admiral Grant's right is Cmdr. (P.) A. B. Fraser-Harris, D.S.C. and Bar, 31-year-old commanding officer of the R.C.N. Air Section, Dartmouth. Admiral Grant took command of H.M.C.S. Ontario when she was commissioned in 1945 and was senior officer afloat on the Pacific coast at the end of the war. He brought Ontario to Esquimalt in November, 1945, at end of the war in the Pacific.—R.C.N. Photo.

## Mayhew To Present Victoria Resolution To Federal Cabinet

A City Council request for immediate federal action on the rising cost of living will be presented to the Dominion cabinet by Fisheries Minister R. W. Mayhew.

The minister has advised City Clerk M. F. Hunter that he has received the cost of living resolution passed by the council at its July 5 meeting. He will present the resolution to the cabinet at the earliest opportunity, the minister promised.

The resolution, moved by Ald. F. N. Cabellu, and seconded by Ald. D. D. McTavish, resolved: "That the City Council call the attention of the Dominion government to the increasing alarm amongst all classes of citizens at the ever-mounting cost of living and urge that immediate and drastic steps be taken not only to curb rising prices but to provide for a substantial reduction in the present cost of all commodities, more especially items of food."

A plea of guilty was entered by Frank Hinkson to a charge of dangerous driving when he appeared in city police court today and was fined \$35 by Magistrate H. C. Hall. His license was suspended for one month. Charge arose out of an accident on Johnson Street Saturday.

## Victoria Women Golfers Cinch B.C. Team Berths

VANCOUVER (CP) — Three Victoria women golfers today were practically assured places on the four-member British Columbia team that will go in search of the Canadian championship next month.

Carrying on with the smart play that gave them a commanding lead at the end of 36 holes in Victoria last week-end, the capital city's Mrs. Jack Todd and the Misses Marjorie Todd and Isabel Jarvis yesterday built up a wide lead in the third round of test

match playoff at Marine Drive Golf Club over their Vancouver opponents.

Miss Todd shot an 82 to lead the field with a 54-hole total of 244. Mrs. Todd, who shot an 88, and Miss Jarvis, with an 86, are tied for second with 254s.

Nearest Vancouver competitor is Mrs. Rena O'Callaghan who carded an 84 yesterday for a 225 total.

The last round, after which the team will be named, was being played at Capilano today.

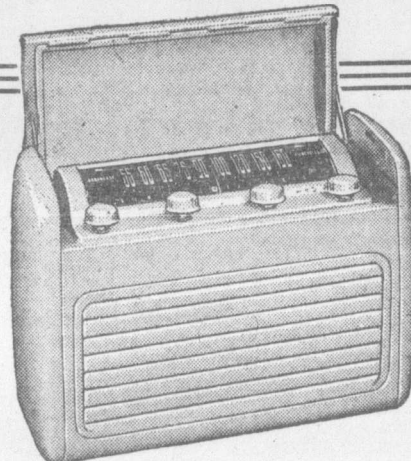

## Rides Horse Bareback To Deliver His Papers

Clayton Cordick, 3249 Maple Street, who delivers the Victoria Times in the Cloverdale district, had trouble with his bicycle Saturday afternoon. Eventually he was stranded on the roadside with most of 98 papers undelivered.

Resourceful Clayton knew a friend nearby who had a horse. He borrowed it and climbed aboard, bareback, and delivered all his papers.

## Prowler Gets Into Home: Scared Off

A prowler managed to get into the home of Mrs. K. O'Donovan, 1031 Carberry Gardens, in the early hours of Sunday morning, but he beat a hasty retreat when the daughter of the house, awakened by noises, called out. Mrs. O'Donovan told city police that she saw the back of the man through a window as he left the house.

## Mystery Film Brings Patricia Morison

Patricia Morison's case history is the basis for one of Hollywood's most familiar legends. Ignored by the movie moguls until they discovered she had a dramatic soprano voice of professional range, Pat has been acting in pictures for several years without so much as giving out with a single do-re-mi. Patricia

is appearing currently in Universal's "Dressed to Kill" at the Plaza Theatre.

Other artists with similar experience might be content to confine their warbling to the privacy of their shower, but not the Morison gal. She's doing something about it.

In fact, she set the wheels in motion a few years ago, when she renewed her voice studies with a professional coach, and still takes a lesson every day.

## 'Fabulous Dorseys' Stars Bandleaders

A striking novelty in biographical films takes place at the Oak Bay Theatre where Charles R. Rogers presents his newest production, "The Fabulous Dorseys." It tells the true-to-life story of the famous bandleaders, Tommy and Jimmy Dorsey. The novelty is that for the first time in films, the principle characters are actually played by themselves.

Director Alfred E. Green naturally had to recruit two talented youngsters, Bobby Ward and Buz Buckley, to play the brothers when they were still in knee pants, but after the initial scenes Tommy and Jimmy take over and the blow-by-blow battles, personal and professional, which were such an integral part of their unusual rise to fame and fortune.

## Pidgeon May Solve Enigma Of Swallows

Although it has been a mystery for 167 years, Walter Pidgeon is going to know where the swallows go when they leave Capistrano!

When they departed from the ancient mission at San Juan Capistrano recently, six of them carried tiny sterling rings on each leg engraved with the actor's initials.

The star of "The Secret Heart," now being shown at the York Theatre, requests that anyone who finds a swallow with such a mark write him at Metro-Goldwyn-Mayer studio telling where the bird was found.

Departure of the swallows each year on Oct. 23 and their return on March 19, as well as their destination has been a matter of world concern for more than a century and a half.

Popular legend has it that they winter in the Holy Land.

### ODEON THEATRE

Edward G. Robinson has given the screen some of its most dastardly villains, and a few of its most noble heroes, but he says he has never consciously tried to portray a bad man or a good man in pictures.

Robinson's remarks on his acting theories were brought out in connection with his portrayal in "All My Sons," now playing at the Odeon Theatre. Burt Lancaster is co-starred, Irving Reis directed and the film is presented by Universal-International.

### DOMINION THEATRE

The Franchot Tone-Jane Blair starrer, Columbia's "I Love Trouble," now is at the Dominion Theatre. Featured roles in the fast-paced mystery melodrama, an S. Sylvan Simon production, are played by Jacis Carter, Adele Jergens, Glenda Farrell, Steven Geray and Tom Powers. The screenplay by Roy Huggins was adapted from his novel, "The Double Take." Mr. Simon produced and directed.

## Where To Go Tonight

(As Advertised)

ATLAS—"Deep Valley," starring Ida Lupino.

CAPITOL—"The Sainted Sisters," starring Barry Fitzgerald.

DOMINION—Franchot Tone and Janet Blair in "I Love Trouble."

OAK BAY—"Fabulous Dorseys," starring Tommy and Jimmy Dorsey.

ODEON—Edward G. Robinson in "All My Sons."

PLAZA—"Nigel Bruce in 'Dressed to Kill.'"

RIO—"City of Conquest," with James Cagney.

ROYAL—"The Miracle of the Bells," starring Fred MacMurray and Valli.

YORK INTERNATIONAL—Walter Pidgeon in "The Secret Heart."

## 'Deep Valley' Set Made To Look Old

Max Parker, art director for Warner Bros., "Deep Valley," currently on view at the Atlas was faced with the problem of creating sets to look as though they had been standing for 50 years. The Saul ranch house was duplicated in every detail at the Warner ranch at Calabasas and on the sound stages at Burbank. All woodwork was designed to indicate both age and disrepair. Paint was left flaking away and the ground was planted with weeds.

Ida Lupino, Dane Clark and Wayne Morris share stellar honors in this stirring action-packed drama of the Big Sur country in California.

## 'City Of Conquest' Drama Of New York

The eloquent and timeless stamp of authenticity sets the pace for Warner Bros., "City of Conquest," stirring film drama of life in New York City, starring James Cagney and Ann Sheridan, which is at the Rio Theatre.

The film, which tells a story as powerful as the city it depicts, is concerned with two youngsters who climb with determination out of the city slums and attain success only to discover that they have sacrificed their life-long desires somewhere on the way.

An excellent supporting cast includes Frank Craven, Donald Crisp and Frank McHugh.

### CAPITOL THEATRE

William D. Russell, whose directorial effort, "Dear Ruth," was a coast-to-coast hit, and whose most recent work, Paramount's comedy success, "The Sainted Sisters" is now at the Capitol Theatre, has taken to trademarking his pictures.

In "Dear Ruth," a fictitious name was needed for a New York square and an assistant's suggestion that it be called "Russell Square" was accepted. In "The Sainted Sisters," a large waterfall in the background of swimming hole scenes with Veronica Lake and Joan Caulfield was designated as "Russell Falls."

## Typhoon Hits Luzon

MANILA (AP)—A typhoon moved northwestward across the China Sea this morning after crossing northern Luzon, blowing off a few roofs and damaging a parked airplane. Heavy rains accompanying the wind flooded low-lying areas in Manila.

## Hope And Crosby Said To Be Fishing In Elk Falls Area

VANCOUVER (CP)—Bob Hope and Bing Crosby are salmon fishing on Vancouver Island, it was learned here today. The eternal movie and radio rivals are believed to be in the vicinity of Elk Falls.

## 'Miracle Of Bells' On Screen At Royal

Eagerly awaited by film-goers, the Jesse L. Lasky-Walter MacEwen production of Russell Janney's "The Miracle of the Bells" has reached the screen of the Royal Theatre with Fred MacMurray, Valli and Frank Sinatra co-starring in the appealing story of an actress' pathetic last wish and its surprising fulfillment.

Russell Janney's popular novel, is produced as an absorbing piece of entertainment. MacMurray has the role of the Hollywood press-agent who brings an obscure actress to short-lived fame, and after her death takes her body back to her native Pennsylvania coal-mining town for a sensational burial.

Sinatra portrays the sympathetic priest of the little church there. Valli, the talented Italian actress, makes her second American appearance, as the Polish heroine whose dying request has startling results. Lee J. Cobb and Harold Vermilyea are featured in support.

## Shirley Temple Plans Start On New Movie In August

By BOB THOMAS

HOLLYWOOD (AP)—Shirley Temple won't get her wish for another film love scene with husband John Agar.

The actress was campaigning for a smooch scene in their current film, "Baltimore Escape," "since we probably won't be doing another picture together for some time." But it didn't fit into the script, she tells me, so they'll have a platonic love affair in the film.

Shirley and John, who smooched in "Fort Apache," will get their separate professional ways after this film. She'll start a new movie in August; all she knows about it is that it's in modern dress. He'll probably start "Mission Without Orders." Richard Berger, "Escapee" producer, tells me John has lost the stiffness he exhibited in his film debut and predicts great things for the boy.

### TOUGH LIFE

Judy Garland's collapse is partly due to the fact that she did three tough musicals in a row. With all the rehearsing of dance and song numbers, that's more than most constitutions can take. "Barkleys of Broadway" and "Annie Get Your Gun" would have made five in a row, so she had to take a rest.

M-G-M legal eagles are going over player contracts these days, with an eye toward settling pacts

of those no longer needed by the studio. But most of the unwanted players are sitting tight. Why should they settle up and join the ranks of unemployed when they can remain on salary? Ingrid Bergman's "Joan of Arc" will probably premiere simultaneously in New York and Hollywood in late November. It will be the costliest new film shown this year . . . Jack Carson, former Carman,

Man, star, and Dennis Morgan will fly to San Antonio Aug. 4 for the "Two Guys From Texas" premiere . . . John Ford has big plans for Ben Johnson, the stunt man. He'll star in the Australian story, "Slingaree."

MORECAMBE—A party of holidaymakers found a black cat swimming feebly four miles from shore. It recovered on meat and milk.

## DENTIST IS "TAKEN AWAY"

"OPEN WIDE," said this dentist, "it won't hurt a bit, just relax... more comfortably sit." "That's all very well," his patient said, staring at the drill... over-head. "But the sight of that thing makes me frigid, I just CAN'T relax." So instead of starting to probe and poke, he just rinsed her trap, and told a joke. Then when his preparations were all complete, (Incidentally his office is on Douglas Street.) He again asked, "please open wide," as he slipped some cotton... fast inside. Noticing her eyes, closed very tight, and gripping the chair with all her might. As more "Lavoris... he squirted it... and repeated, "this won't hurt a bit." "OUCH," she cried, and he could see, 'twas closer to the nerve, than it ought to be.

THIS IS A PRETTY CLOSE PRICE... beautiful Tri-Lights, with weighted bronze base, three candles and hand-painted parchment shades. \$12.00, (bulbs extra) at HUBER'S (retail) FURNITURE WAREHOUSE.

OUTSIDE ON THE STREET... all was still, when suddenly the racket... of a noisy air-drill. Some careless soul... pavement-slappy, ripping up the tracks... trigger-happy. The patient leaped right out the chair, 'tho he hadn't put the drill in there. She G-L-A-R-E-D at him, stood aghast, "did you HAVE to give... that kind of blast???" "LOOKIT lady, I haven't touched my drill, see... it's still hanging... on its grill. C'mon back... up in the chair, keep your eyes open... don't gimme that glare."

NO GLARE with one of these "Torchiere" type Tri-Lights... only \$15.00. A summer special at HUBER'S (retail) FURNITURE WAREHOUSE.

GINGERLY the patient got up off the floor. (we heard this doctor... gently swore.) As again she gripped the chair in sweat, again closed her eyes... got perspi-wet. A new piece of cotton bulged her cheek, out of one eye, she peeked a sneak. As he raised his arm for the drill, she closed that eye... took all her will. CLACKETY-CLACK... again from the tracks, that air-hammer gave... with spitting wacks. She let out once more an awful yell, he raised his window, shouted "Go To... then slammed it shut, and sed to her, "your appointment I feel, I should defer."

MAKE AN APPOINTMENT WITH US and see how far we can stretch your D.V.A. Ask someone who "saved" his here.

THEN INTO his lab, he stared at some teeth, as the racket continued on Douglas beneath. Some "choppers" opened and said to him, "better beat it, Doc... get outa this din." He grabbed his lid, went down on the street, ran up to the man with the hammer-beat. "GIMME THAT THING" he grabbed it away, and nearly got smacked by a passing dray. He gave it the gun, he didn't swerve, and crazily laughed... "NUTS TO THE NERVE." As onlookers marvelled at the wallop he packed, and the beautiful cavity and 3-point contact. He couldn't stop, loving his work, the way it bounced and gave a jerk. He worked overtime, didn't want any pay, till they finally came... AND TOOK HIM AWAY.

## Commerce Chamber Delegates To Visit City In October

Delegates to the 19th annual meeting of the Canadian Chamber of Commerce at Vancouver in October will come to Victoria Oct. 29.

Delegates will arrive on the afternoon boat and leave at midnight on the return trip.

D. L. Morrell, executive secretary of the Canadian Chamber, announced today that businessmen from as far east as Halifax will travel across Canada for the meeting.

They will journey by special train, picking up delegates as they cross the continent. The group will stop en route for a full day in Winnipeg, Saskatoon and Edmonton, and special ceremonies will be held at each of these centres.

Among the subjects to be discussed at the conference are, Labor legislation, the single transferable vote, taxation, transportation, national defence, socialism, communism, education, price and wage controls, immigration and housing.

Attitudes of the Canadian Chamber's member groups on such subjects are now being submitted in the form of resolutions to be considered at the meeting in Vancouver.

## ONE MINUTE NEWS ABOUT JOHNS-MANVILLE

### PLAN NOW FOR WINTER COMFORT

With the mercury hitting the high spots, it hardly seems appropriate to talk about winter heating. But it's wise to look ahead—plan extra comfort and save on heating costs! Right now is an ideal time to insulate with Johns-Manville Rock Wool. Then, when winter comes you'll find it easier to keep your home snug and warm—on less fuel! For with J-M Rock Wool you get full benefit from the fuel you burn—cut heating costs by up to 30 per cent. And remember, this fuel saving year after year, means J-M Rock Wool actually pays for itself!

Get the complete facts on Johns-Manville Rock Wool. Ask your nearest J-M dealer for free folder, or contact Johns-Manville, 1206 Homer Street, Vancouver.

"If you're the manager, you ought to know that I think the young man in the front seat never drove one of these things before in his life!"

## New York Youth Wins Junior Chess

OAK RIDGE, Tenn. (AP)—An 18-year-old New Yorker, Arthur Bisquier, Saturday edged out a Canadian youth to win the United States junior chess championship.

Bisquier and Frank Anderson of Toronto came through Saturday's final round tied with eight straight triumphs. However, Bisquier was declared winner under the Swiss system of taking into account the quality of the opposition of each player.
